“This book offers an inspiring look at the world of female climbing, capturing the heart of the sport from a perspective not fully explored before—that of the women climbers themselves. Working with Chris Noble on this project was an absolute pleasure. He helped me to reflect on and articulate why climbing has become my life's passion. I highly recommend this delightful read.”—Sasha DiGiulian, world-ranking leader in female outdoor sport climbing

Got this for my inspiring daughter and she is loving it!

An inspiring & educational publication. I liked it so much I bought one for a friend. A great read, even if you aren't a climber.

Great book, makes a good gift for any female climber!

Masterful photography and compelling stories gives us a stunning perspective of women and nature. One day I want my daughter to take inspiration from the women profiled in these pages.

A little repetitive, but loved enjoyed it all the same. Especially enjoy Lynn Hill!

the book was a present for my boyfriend but he is loving it, so probably he will recommended to climber friends

Go Girls!

I've never called myself a "climber" but I do enjoy climbing and married an accomplished climber, so I enjoy reading & learning about the culture and history of climbing. Most of what I've read or known

has been centered on men climbers so I was excited to see this book about women climbers. I think this book is beautifully done, the photographs are really amazing! You'll wonder how in the world the photographer (Chris Noble) was able to capture these woman climbing. The profiles, told in their own voice, of the 20 women are motivating (even for a 60 year old woman), interesting and entertaining. Even if you've never climbed, you'll find the stories in this book tell a universal story about finding and following your passion, about struggles and adversity, about love and relationships and finally about personal success and inspiration. You don't need to be a climber or a woman (my husband loves the book too) to enjoy and appreciate this book.
