Vile Vikings (Smelly Old History)

Synopsis

Take to the seas with the vicious Vikings, and get a whiff of life on board their famous longships packed with animals and seasick sailors. You'll need a strong stomach for the stormy voyages. Watch their bloody battles, and the gruesome disemboweling of their defeated enemies, then delight in the fragrant feasts they held to celebrate their victories.

Product Dimensions: 6.2 x 0.2 x 8.3 inches

Shipping Weight: 4 ounces

Average Customer Review: 4.7 out of 5 stars 2 customer reviews

Best Sellers Rank: #845,157 in Books (See Top 100 in Books) #149 in Books > Children's Books > Education & Reference > History > Medieval #466 in Books > Children's Books > Education & Reference > History > Ancient

Customer Reviews

Grade 4-6-An olfactory approach to history. The strength of this series is the idea itself: a short, breezy look at the hygienic habits of various ancient societies. Some of the pages feature scratch-and-sniff panels. They are very subtle, each smelling pretty much the same. According to Dobson, the Greeks probably had a rather pleasant olive-oil odor, perhaps accounting for the fact that of the two, Vile Vikings offers more grossness per page. Although the books feature lots of facts, they both suffer from a somewhat confusing organization, as readers bounce around from myths to facts, with some non-hygiene information thrown in. Both have funny, full-color cartoons, an activities page, and a rather clunky poem. While not pretending to do more than scratch the surface of what life was like in these societies, these books may give students enough of a whiff to want to read further. Todd Morning, Schaumburg Township Public Library, IL Copyright 1999 Reed Business Information, Inc.

"May give students enough of a whiff to want to read further."--School Library Journal

I first read these from the library, stinky fun and informative as well. When I realized that they were becoming harder to come by, I decided to get my own copies.

This small paperback has a surprising amount of information. There are "vile" scratch and sniff areas (and some pleasant ones as well) in this book, but they also serve to show that the "Vikings" are not as vile as everyone else makes them out to be- they also made important contributions to history and civilization as we know it. It's a wonderful book to introduce young (or old) readers to Norse culture. You will find it an (almost entirely) accurate account which will encourage you to learn more. I also recommend the treasure chest "The Vikings" by Fiona MacDonald as a companion to this book. Both were definitely worth the money I paid for them, and will become part of my private research collection.
