Drive Time: Spanish (CD): Learn Spanish While You Drive (All-Audio Courses)

Synopsis

Now anyone can learn a foreign language while commuting to work, running errands, or even taking a trip with the family. The new all-audio Drive Time series starts with an ingenious "On-Ramp" CD that eases language learners into Spanish, French, Italian, or Japanese with simple, practical expressions and engaging warm-up exercises. Three additional CDs contain 18 lessons that cover all of the essentials—vocabulary, pronunciation, grammar, and basic conversation. Drive Time also includes a 64-page reference guide for anyone who would like to see spellings or read dialogues as a review—from the passenger seat, of course!

Customer Reviews

I bought this before I had read reviews on it because it was the cheapest cd's you could get.....more bang for the buck. After I read the reviews, I thought woe is me. Sounds like a waste of money to me! Much to my surprise, I really am using it. It's in my car of course, and I run the cd's over and over again. They seem a bit past me, but they are extremely helpful and well worth the little money that it is. My only complaint is that they don't give you much time to repeat occasionally. Plus sometimes they don't translate some of the conversations, expect you to know it I suppose. Still despite these complaints which may loom large to some, I find myself really getting a lot out of these cd's and recommend them to anyone from advanced beginners, intermediate to advanced. And the price is right!UPDATE I have since learned that it is necessary to use more than one program so now I have several programs and I use them all while driving around and going

places.

I have a reasonable attention span. But this made my mind wander all over the place. I still can't speak Spanish.

I wanted to brush up on my Spanish. I found the 1st CD slow but the other 3 were very helpful and well done. People think I am talking to myself in the car, but with cell phones in cars, people don't think you are strange anymore. I find it an easy way to improve my Spanish and fun. I recommend the Living Language System to anyone. Drive Time Spanish is one of the better versions for improving your Spanish that is available.

If you already know some Spanish, this will unfortunately be a waste of your money. I study Spanish a lot, but don't speak it, so I like to keep on trucking along getting a little Spanish in my ears each day. I purchased this because many reviews said this wasn't for beginners, but let me tell you, I am bored to tears listening to them explain that there are masculine and feminine words, that the word "the" is "el and la", and how to say the time. Even if you are a beginner, this would not be comprehensive enough on its own, and you'd need classes or Rosetta Stone. Disappointingly, I am still on the search for more well-made audio programs. I would recommend Learn In Your Car Spanish, not too much beginner material there and it acts as a good refresher.

This is great if you are not a beginner learning Spanish. Starts slow but then the tempo of each lesson increases quickly. Love this concept of learn while you drive.

Love this CD. I am a student of the Spanish language. This CD makes me think--Appreciate the speedy service of . Dale

The content of this CD was very loosely grouped, almost random. I didn't find it very helpful. I only listened to it once, then got a different CD.

My order with All New Books was placed on 2 December 2009 Two months later (4 Feb 2010) I am still awaiting delivery of the CD "Drive Time: Spanish (CD): Learn Spanish While You Drive" I cannot recommend the service received from All New Books.
