Rush Revere And The Presidency

Synopsis

Join Rush Revere on another action-packed journey! Rush and his friends head back in time to the early days of our independent nation to watch the early American presidents George Washington, John Adams, and Thomas Jefferson in action! Hey there, young readers! Rush Revere here. I can't wait to rush, rush, rush to history with our next adventure: a trip back in time to the first days of our country on its own two legs, free from British rule. What's that, Liberty? Liberty wants me to say on its own four legs. Anyway, as I was saying free from British rule and creating a new government for the people, by the people. When one of the time-traveling crew from Manchester Middle School decides to run for student-body president, I take them back to meet our first three presidents and first ladies. So, join us as we head back to those amazing and important first years, when we got to make all the decisions. Turns out, it's pretty hard to lead a whole new country! We had to make new rules for America and set the path for the country we would grow up to be. And who better to be our first-ever leader than the general who won the war? George Washington! He was the father of our country and made some incredible decisions that still affect how we live our lives today! But even so, President Washington knew that he couldn't stay president forever or we might end up with a king, just like England. We'll watch as he makes his tough decision to step down to spend more time with Martha Washington and his adopted grandchildren, Nelly and Wash. Then we'll saddle up and ride into the presidency of John Adams, who followed in some very big footsteps with the help of his accomplished wife, Abigail. Then we'll rush, rush, rush to the year 1803, when Thomas Jefferson continues the mission of creating America by making a risky decision to buy a lot of land from the French in the Louisiana Purchase, which more than doubles our size! Using advice from the early presidents, first ladies, and a former U.S. congressman, the crew works to defeat an old nemesis. The question is will it be enough? What are you waiting for? Bring your curiosity and let's giddyup!

Rush writes the most amazing books. I have the complete series, both hard back and audio books for all of them. When they come out in a group of 5 I will have them for my soon to be 7 year old Granddaughter....

I have gotten all the Rush Revere books for my grandchildren and then I read them first. They love them and, as a former American History teacher, I appreciate the reading of "real" American History rather than the revisionist history the kids get today. I'm assuming that Rush and his wife will be doing a book on the Supreme Court and also on Alexander Hamilton as the first Secretary of the Treasury and the establishment of the capitalist system for the U.S. I have also recommended the books to other grandparents and parents for their kids as well.

After lights-out and electronics-off at night, we allow our 13 yr old to listen to CDs as she's falling asleep and she loves this one! She's listened to the whole series as an 11-12 yr old and when this came out, we thought she might be too old now, but she wanted it and listens to it over and over.

These books are fabulous! I was, at first, surprised at how well received they were by kids even in 6th and 7th grade. The books are beautifully produced with nice paper, great illustrations/pictures and the characters are durable! Both boys and girls like them and don't seem to tire of them. We have the entire series, plus the audiobook versions. They are listened to repeatedly in the car or at night.

Great addition to the rest of the series on American history. Purchased for 10yo who enjoys stories like this: historical adventures that include a story line with kids involved. The 18yo saw the book and eagerly asked to read this one, since teen had previously read the first book (a few years prior) and really enjoyed it and was looking forward to reading more. Overall, a good purchase.

SUCH a great series! I have read all of them so far and absolutely love them! Funny I don't ever remember liking history or understanding the small details I've heard so far in the series. Regardless of whether or not you love the author, the content and details of the story are excellent. Makes learning history fun for young minds as well.

Great Book. My 9 year old loves the series! Future Patriot for sure!

Your books keep my interest, I liked this book as I learned a lot wish it would be a required reading in all schools, I have read all five books and am eagerly waiting for the next one, God bless you, your wife and all who helps with these book, please write more. I may be 73 but still learned much
