Customer Reviews

This book had a lot of activities in it that is a great time passer for my kid, instead of always playing video games and such.

Great book of mazes.

great

Great book! My 7 year old loves it!

Too challenging for the average (or above average) seven year old.

I got this for my son who loves Mazes. I was disappointed that the mazes seem so bland. They are difficult and take some thinking (even I had to go pretty slow to do a few) but for a kids book this was quite drab. The mazes are interesting and each one is different, not for younger kids, they would probably get frustrated quickly if they are not really good with mazes already. All in all it delivers on mazes but bores on any color or levels for a child to progress in. The shipping took eight days. For the price not as great as competitors.

Mazes for all levels, from "unbelievably easy" to "super easy"! My 7-year old is going to finish it in about 15 minutes. The only difference between this and a kids' restaurant placemat is that this has a few more pages.

My kids are really enjoying these mazes!! There is a short lesson that goes along with each maze. You can definitely do more research or "spin off" schooling on each lesson/topic. Educational and fun, gotta love that!! ;) The mazes could be a little more challenging per age group suggested, my only small complaint!
