## THESE GUYS ARE TOUGH TO BEAT

Didn't realized just how old this book is; it was originally published 1981. While it is still fun to browse around, many of the "contemporary" questions require a search of the memory banks.

What a fun book! There are so many puzzles to try, and they are all challenging. It's very satisfying to figure them out. My 9 year old son loves the book too. The night it arrived he spent over an hour working on the puzzles and was so proud when he could solve them. Very happy with this purchase.

great

I'm a puzzle book addict and the ones in this book are really on the level. The variety and complexity are going to keep me busy for a long time. Love it and recommend you buy it, but only if you up for the challenge

Some people do crossword puzzles, some do Sudoku ... I like Mensa puzzles. Great for keeping the mind sharp!

I bought this for my 13 year old. He is convinced he is a genius! We are having fun with the book!
