This book came out more beautifully than what I expected. It came in a cute little white box to store it. The pages definitely feel durable, resisting wear and tear. Just like how it shows in the preview, it gives you a page to place a picture, and the next page that would correspond with that picture. The book starts on the wedding day, then every year from the first to fifteenth anniversaries. Then it goes from the fifteenth to the sixtieth anniversaries every five years (i.e. fifteenth, twentieth,

twenty-fifth, thirtieth, thirty-fifth, etc.) In every page, it's beautifully decorated with all sorts of flower designs, accompanied with great marriage quotes by well-known people. And in the back cover, there's this cute little folder flap that you can place extra photos or memorabilia or whatever you like in there. I'm so excited to give this present for the first anniversary for my husband and !! I also think this would be a great gift for newlywed couples! I know that I'm going to give this book to two of my friends that are getting married next year, and I'm sure they'll enjoy this as well! In other words, this book was definitely worth it!

I buy these for wedding shower gifts and everyone -- recipient and guests always LOVE it. Of course, bride never gets a duplicate and it's something they can treasure for years to come. My husband and I got a similar book for our wedding and update it every anniversary with a photo and a few lines about the highlights of the past year. It's been fun to look back and remember and to look forward to doing it each year.

Oddly, the book I received, though lovely pages, was bound with half the pages upside down! I returned it! Now that I read other reviews, I see that the book was supposed to arrive inside a white gift box, and mine was not in a gift box. I think someone knew something.....I usually buy the Wedding Anniversary book, and have given many of them as gifts. I just wanted to try this 1.

My husband and I will be celebrating our first wedding anniversary this fall and I was looking for something to capture our anniversaries. This book is high quality and has plenty of space for writing/pictures, etc. It also comes in a white box for easy storage.

It was a first wedding anniversary for my grandson and his wife. She lived it she said she had been thinking about making an album for their anniversary. This was the perfect gift

I bought this for my two daughters. One recently married and the other married 2 yrs.They BOTH LOVE IT..

Very beautiful. A special way to preserve memories. Bought one for me and my husband on our second anniversary and then for my brother and his wife for their first anniversary . They loved it. And I love mine.

Kind of outdated design but the idea is really nice. I bought one for a wedding gift and one for us too. It doesn't really matter what the design is because over time it will most likely become outdated anyway.
