Tap In: The Dance Series (Book #3)

Synopsis

â œl started tapping because I couldnâ™t stop; because once I started it just took over all of my body. You have to tap because you want to, not because itâ™s some competition or youâ™re trying to prove a point, but because you love tap and the music moves you. Tappers come in all shapes and sizes and every single one is different in their own way. Thatâ™s one of the things I love most about tap.â • Join Sabine, straight off the competition circuit who is struggling to get free of her controlling stage mom; Zel who spent an entire year at ballet school to earn her chance to tap; Anne, our plus size shuffler out to prove once and for all that in dance size doesnâ™t matter and Kristen, the spoiled brat who unfortunately dances like Ginger Rogers, as the studio kids meet the twin street dancers, Jocelyn and James who are tapping on scholarship and breaking all the rules to be the best at a tap intensive that battles their freestyle and breaks down their barriers.

In addition to Tap In , Airin Emery has written six other books in the Dance Series, by Lechner Syndications. After a professional dance career that included everything from Fosse to Cirque du Soliel she has changed gears and now focuses her artistry on choreography and writing. She maintains co-ownership of a dance studio in the Midwest, adjudicates for competitions & festivals and currently lives in Malibu with her husband, three children, and two precocious dogs.

Loved it

I love this series!!!!!!!!!!!! :)))) it is so good. There are a few spelling/grammar errors but it is still a good read!

Haven't read the book yet, it is part of my summer reading series, can't wait for the weather change to enjoy!

I have read Tutu Much by the same author and was introduced to a group of girls in that book that were very passionate about ballet. One girl in particular Gisela was struggling with attending the ballet program because she was more interested in tap than ballet, but her mother refused to acknowledge her love of tap. In this book, Tap In we meet Gisela again, this time she is wrapping up the ballet course and is excited about going to the summer tap program, but her mother is still unhappy about it. We also meet an entirely new group of girls, all of whom love tap, come from varying backgrounds and social statuses but will all become friends through the course of the summer tap program. Great book that was easy to read, would be a great book for teenagers & "tweens".

I love to tap and have never found a fiction book about tap before! I love it and hope to read more in the series.
