This book is filled with 31 artistic and imaginative floral patterns that fill the pages from edge to edge, all placed on dramatic black backgrounds that will make colors like pastels and neon colors seem to pop right off the page. The artist has also added hearts intricately adorned with different patterns to 6 of the images for variety. You will find Flowers, Leaves, hearts, and vines combined and intertwined into imaginative, flowing floral patterns. 1. 31 full paged illustrations, all with black backgrounds, printed one per page (the back of each page is blank) on medium weight paper. 2. The pages are perforated for easy removal from the book. 3. All markers leak through the paper so I place a piece of paper under the page I am coloring to prevent damage to the next page. 4. This coloring book is perfect for colored pencils, ultra fine markers, or gel pens. 5. I am adding pictures for you as always. 6. Two full sized fully colored pictures have been added on the inside front and back cover to inspire you.

This is absolutely the best coloring book I have!!!! I love it so much I even bought an extra one!!!! I love the intricate details on some pages and the artwork. They are one sided and perforated. I use Permanent markers and I put a safe sheet under which I don't mind and wow look how the colors POP on those black pages!! Already pre ordered two of the new one coming out!!

This is a lovely and unusual coloring book. The backgrounds are pre-filled in with flat mat black and the design stretches over the entire page from side to side. The flowers, hearts and other details (such as trees, birds, etc.) are the only part of the design which is left to color. It certainly gives the impression of a midnight garden that you can actually see. There are 31 designs in the coloring book and they are all quite imaginative. Some of the flowers seem recognizable while others seem more based in fantasy than in reality. The artist uses hearts six times as a central part of her design; however, she also uses small hearts throughout the designs as parts of flowers. The designer of this coloring book, Lindsey Boylan, is a new artist for me. While I don't think that I will generally look for coloring books with the background filled in, I will certainly enjoy this one and will also be purchasing Ms. Boylan's next book based on animals in a midnight forest. It would be very cool if she did a book based on cities at night, too, as I think that would make a great subject. Creative Haven books are always a good quality paper and my pencils and gel pens generally work well with them. My markers almost always bleed through. Not too worry, though, as they only print designs on one side of the page. The backside is left blank. If you don't remove the page from the book to color, you should put a piece of freezer paper or cardstock behind the page as you work so it won't bleed through to the following page. If you do remove the pages, the publishers have provided nicely

perforated pages for easy removal.

Really enjoying this book! The pictures are great and one sided on nice thick paper. I enjoy the black background-really makes colors pop! The pages are perforated for easy removal. Very good quality. Enjoy!

I love that this book has black backgrounds. It really makes the colored images pop! I would love to see more book like this and hope the author will do more. Each image is printed on one side only, on decent paper. I'll attach pictures are examples, below.

I've been searching for a black paper coloring book for ages and this one is beautiful. Same excellent quality that I've come to know and love from Creative Haven. These designs are complicated enough to entertain an adult while not being so intricate that they takes a week to complete. Will be ordering one for my mom as well!

I absolutely love this Creative Haven Midnight Garden coloring book. My favorite book, and I have many many books. I love the black background - I use a lot of the florescent gel pens and when everything is colored, the black background makes everything just stand out. My girlfriend ordered one after seeing some pics I had colored.

beautiful pictures with black background that produced gorgeous pictures using Copic markers. Other markers or colored pencils would provide similar results. Highly recommend buying this coloring book from someone who I has bought many coloring books off this type. Note: Creative Haven coloring books are the best I've bought for use with markers. The pages are perforated for removal so you can remove and not bleed through to the next picture. Even better, Creative Haven coloring books are adult interesting, only use one side of the page so you don't have to choose which picture you want to color and which will be ruined if using any type of marker. In addition, they don't put printed coloring on every picture so that you have a portion of the picture already colored with the author's color scheme, which you will never match with any coloring tool. Many much more expensive and not as interesting coloring books for adults do one or both of these things. Check before you buy if you'll be able to use all of the pictures and not half of a book priced twice as high.
