Customer Reviews

My son was not a reader, but when he was in middle school 11 yrs ago, he read this entire series in a week! I couldn't believe it, knew it had to be awesome, so I read it also and loved it. My daughter, who is now 11, is an avid reader at an advanced level. When I suggested this series she half heartedly agreed to read it, but I got the impression she didn't feel it would be up to her standards. When she finally ran out of books and picked up the 1st book, she was riveted and couldn't put it down! Missing a few of the series, I immediately popped on to pick this one up. It arrived ASAP in the exact condition as listed. Couldn't be happier !

I bought the first couple of books on a whim only to find a very relatable main character and a story that offers middle school and adults a less grisley, but un~twilighted, world of the supernatural. What a rare find! Initially I based my view of the series on the movie made years ago, but found that

the movie failed to capture the essence of the book series; not a big surprise. Now my six grader is chewing his way through the books and comparing them to Susan Collins's 'Gregor' and 'Hunger Games' books; more the former with this 200 pager series. Because of the shortened length of this epic, I would recommend not being satisfied with just one book. I made that mistake and ended up reading three of the books from Kindle because I could not wait to read more. Great series that gets better as it evolves unlike some others that flatten out or bulk up on repetition to fill up the pages. In summary this is a great read, parents please ignore the titles and read for yourself. The series is about fitting in and acceptance through life's stages of transitions.

I'm not a fan of the stamps and stickers that were left on the product. I've always taken really good care of my books, however these look like they were mishandled. The book series is one of my favorites and I can finally add it to my book shelf so there is that.

Discovered Darren Shan from the Demonata Series, and he never disappoints. Won't list points from the book, as not to spoil it for future readers, but I guarantee you'll fall in love with his work.
5*stars

As I said, this was a gift for someone else. She said they were not difficult to read and very entertaining. She really loved the whole series and can't wait to read more from Darren Shan. She said "It was kind of like like Harry Potter, only better!".

My son can't stop reading these books! He's completely hooked on the entire series.

Great series by Darren Shan !!!!!It just continues to get better & better with each book in the series. I am an adult & enjoy the tale of Darren & his vampire adventures.

Well written with a surprise twist
