So, is the Draekon mutation a gift or a curse? I guess it depends on who you ask. The Zorhan give Earth the cure for leukemia in exchange for 10 females. Seems like a fair trade since they've been assured the women will be under the Emperor's protection and will be returned to Earth 6 months later. But of course, a zealot causes the ship to crash on a prison planet and the presence of the human females causes some of the exiles to morph into dragons. Exciting!

I started reading this book and couldn't put it down there is so much action, adventure, sexual romance and the mystery of what is going on with the Draegons. I'm looking forward to reading the next book in this series.

What an amazing start to a new series, with sexy alien men that have been banished to a prison planet because they carry a mutated gene where they are Draekon, in other words, they can shift to dragons. The Zorahn are wanting Earth women to aid in their secret experimentation but convince EarthÃf¢Ã â \neg à â, ¢s government that it is a temporary six-moth stent, and ten women will be on the first shuttle. $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ A"You represent the first step in an alliance that we hope will span generations. $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A} \hat{A} \cdot \tilde{A}f\hat{A}\phi\tilde{A} \hat{a} \neg \tilde{A} \hat{A}$ "We $\tilde{A}f\hat{A}\phi\tilde{A} \hat{a} \neg \tilde{A} \hat{a}$, ϕ re glorified lab rats. $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \hat{A} •Viola Lewis has nothing on earth except memories and heartache. The trip to Zorahn is an adventure, a chance to get away from her pain and memories for six months. In truth, all ten ladies have no family left, so they are really expendable. The plot will have one of the three aliens on board that will take the shuttle hostage and crashes them on the planet where the men from Zorahn found with the Draekon gene are exiled. $\tilde{A}f\hat{A}c\hat{A}$ \hat{a} $\neg \tilde{A}$ Å"This isn $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ $\hat{a}_{,,\phi}$ t the space vacation I thought it would be $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \hat{A} • As Viola and three others leave the shuttle to explore, one will become ill, and Viola will continue without the other Earth women. There is an interesting cast of characters, plenty of angst, danger, and passion. The chemistry between Nyx, Arax, and Viola sizzles on the pages with explicit scenes.

This new series has a strong beginning. Included are a well constructed world setting, males exiled for genetic anomalies, Earth women led to believe the trip would be temporary, a hijacking, and a fair number of dangerous lies. The lead characters in this first book, Arax, Nyx and Viola are strong and loving; well able to lead the others in the search for their future on this planet. Very entertaining! I'll be watching for the next.

A very good read with a wonderful new world full of subterfuge ,good and evil love and of course dragons

I bought this book because it was co-written by Lee Savino. I've read all of her Berserker books and absolutely adored them, so I was willing to take a chance on this one. It's easily as hot as the Berserker books with scenes of hot double sex. The heroine, Viola, agrees to become a lab rat after her father dies. One crash landing later, she meets two aliens who become dragons when they see her. They tell her she is their mate and she will give them the ability to become dragons at will. She doesn't believe them but can't deny the lust she feels toward them. They claim her together and bring her and the other survivors to their camp. The story will continue in the next book. The sex scenes are definitely hot but I was a little disappointed that there was little discipline and no real D/s. Can't have everything, I guess. Still, the story is innovative and fun and doesn't fall on the old tropes of alien abduction. I'll be sure to keep reading the series. I have a feeling it will only get better as it goes on.

Arax and Nyx are Draekon who were exiled to a prison planet decades ago for the crime of having

undesirable genes. Viola Lewis is a human who was on her way to the planet Zoraht as one of 10 women who supposed to be guinea pigs after the Zorahn show up on earth offering cures for cancer. On their way to Zoraht, their ship is hijacked by one of the Zorahn who wants to use the women to help bring the Draekon back using the human women. The hijacker, a fanatical Zorahn, causes the ship to crash on the prison planet. Viola goes out to try to find water and food for the other women and almost ends up being food herself, leading to her meeting with Arax and Nyx, and their amazing change. There are bumps and bruises, twists and turns, some confusion, and startling discoveries, but in the end, Viola, Arax, and Nyx end up with their HEA.Lee Savino is an expert at writing MFM stories and Lili Zander matches well with her to create a great book and a good start of a new series.
