Diane Carlson is a professor at California State University - Sacramento. Carlos Plummer is a professor at California State University - Sacramento.

My daughter got this for her college class and out worked just fine. There were some sections that were different from her school's text. But overall it was fine... And a lot cheaper.

Worked perfect for my summer course and was a life saver for studying.

just what i needed for geology 100

great book, easy to read and follow.

Excellent textbook. It provided me with a thorough understanding of Geology.

Great book, if you want to know anything about the Earth, I highly recommend it.

Great book even better price

Is the book as requested
