# 101 Accessible Vacations: Travel Ideas For Wheelers And Slow Walkers

## Synopsis

101 Accessible Vacations: Travel Ideas for Wheelers and Slow Walkers is the first guidebook dedicated exclusively to wheelchair-accessible destinations, lodgings and recreational opportunities. Penned by Candy B. Harrington, the editor of Emerging Horizons, this new title focuses on the vacation planning needs of wheelchair-users and slow walkers. 101 Accessible Vacations contains destination information on over 101 cities, lodging options, national parks, tourist attractions and recreational activities around the country. The book is organized so readers can search for a holiday based on their specific interests or travel styles. Unlike other guidebooks that are organized geographically, 101 Accessible Vacations includes sections ranging from Road Trips and The Great Outdoors to Historic Haunts and Cruisin. And last but not least, there is Candy's Picks, which includes a collection of some of the author's favorite trips, destinations and activities. Candy describes the access of all attractions, lodging options and tourist sights, rather than just stating that something is or isn't accessible. After all, accessibility is in the eye of the beholder; and what may be accessible to one person can be filled with obstacles to someone else. Says Harrington, There's a world of travel choices out there for wheelers and slow walkers. And this book contains many of those choices; along with updated resources, information and access details to make them a reality.

## Customer Reviews

This book seems to have been half thought out. It lists few places, the few the writer visited and liked. Us aging baby boomers do need such a book, and I hope someone writes it---but--this isn't it.

Some good suggestions - material a bit dated.

I thought the entire book was quite a bit out- of- date. So it didn't really help at all. I do better on the internet.

Has a lot of good ideas.

This book is very broad overview of the subject matter. While, this is fine, it really doesn't help very much in terms of trying to figure out the logistics that those with disabilities face on a daily basis. With a lot of the topics, I felt like there was some good introductory material, but was again left wanting details such as - How am I going to do? What activities are nearby? (And Yes, I have ton countless number of hours of my own research) I have a complicated situation in terms of my disability and read this entire book, and I still have no idea where I want to go for vacation. So, if you are looking for a book with a few ideas, that then this is fine. If you are looking for a book that has more detail and gets into specifics of access, this book is not for you.

As a person struggling with PPMS (primary progressive multiple sclerosis), I was depressed by what I thought was the reality that I would not be able to travel. Not so! This book makes visiting all the places I've wanted to see doable. Thanks Candy Harrington for this book and your enabling outlook on travel.

Great ideas for both my husband ( in a wheelchair) and myself with bad knees. The locations are some that I've known about, but others have us heading in a new direction..

This was an excellent book with many suggestions to vacations accessible to wheelchair users or slow walkers. The author even included phone numbers to get in touch with the places and the

handicap accessories suppliers. Great job!
