Moondust (Luminescence Book 3)

Synopsis

Light and dark – polar opposites. That is how Brianna sees Gavin and Lukas. One is the brightest stream of sunshine and the other as dark as twilight. Brianna Rafferty is a clumsy witch with the power to strip others of their magic. Her gift both scares the bejesus out of her and thrills her. Her future is bleak and troublesome, filled with uncertainty. There are those who cloud her decisions, make her doubt herself and what she feels. Sometimes it takes more than courage to make the ultimate sacrifice. In the end, she will have to face her toughest decision yet. There is evil working among her, threatening all those she loves. In a journey of self-discovery, Brianna will do whatever it takes to protect them. No matter the cost.

Customer Reviews

I really enjoyed the story of Bri and Gavin. I knew Lucas as a twit and no good. I hate Bri had to go through so much and never deserve none if it! Although I didn't like how long it took her to decide that Gavin was who she wanted. No more hiding who she is, her secret was ousted to her friends, Austin took it like a champ, Tori not so much, it took her a little longer to accept it, which I thought was crap lol. Friends should be friends no matter what. Even her aunt knew about Bri's Magic, which I kinda thought she knew the whole time. All around I enjoyed this series!

This is a great ending to the story of Brianna, Gavin, and Lucas! The ending was wonderful, you have your own doubts about Gavin and Lucas, which one is evil, which one is good! In the end, she picked the right one. I hardly cry when reading, but I got teary eyed when she decided to go away, not being able to handle all the magic inside of her after what happened with Lucas. I like the fact that Brianna wants to be a good witch, not using her powers for evil or to intimidate others. This is a good read, from the very start, Luminescence captured my interest. I've read similar books where the lead female character is about 15-18 years old, didn't know she had powers, or that she is not human. Usually there is a love triangle as well as villains, and other stuff, while she goes to high school at the same time. But this one has a really good story. I recommend it!

Great ending for these characters was a great read and fun story. J.L. Weil is an excellent author to get hooked on

I love J.L. Weil, so I will pretty much anything she writes. I loved the first two books and the final one was just as good. I felt the ending was a bit rushed but overall, she handled the conclusion well.

Ending was too simple and fast. No thought into it, just bam and the stories over. Then one paragraph and her problems were fixed. Beginning and middle were great. Had a few typos but they didn't take from the story itself.

Cute witch series with supernatural fun, some what of a love triangle. Lots of similarity of Twilight. Love me some bad boy Gavin!

I read the first 2 books of this series in 2 nights. And then I read them again, and I had to of course read them again when this one came out to get the full effect. A great story, amazing characters that you absolutely fall in love with. I can't wait until I read it again down the road. Highly recommend this entire series

this book not only ruined the series. But it's predictably physically hurt me. Everything u guess at from book one happens exactly how u think it will... I kept waiting for a twist or something interesting to happen, but it never does. This is the 3rd book I think I have read where I wish I could actually get my money back. Side note: if grammar and misspelled words bother u, I would not suggest this

book.
