# A Glimpse Of Light: A Discussion On The Hebrew Calendar And Judaic Astronomy (Based On Maimonides' Kiddush Ha'chodesh)

## Synopsis

Take a historical tour of the Jewish calendar and the astronomy and mathematics upon which it is based. This is an encyclopedic reference work on all aspects of the calendar, and an invaluable aid for the study of Maimonides' Laws of Proclaiming the New Month.

## Book Information

Hardcover: 428 pages

Publisher: Targum Pr; First Edition (US) First Printing edition (March 1998)

Language: English

ISBN-10: 1568711360

ISBN-13: 978-1568711362

Product Dimensions: 1 x 6.2 x 9.5 inches

Shipping Weight: 2.2 pounds

Average Customer Review: 4.5 out of 5 stars 2 customer reviews

Best Sellers Rank: #4,547,872 in Books (See Top 100 in Books) #67 in Books > Travel > Middle East > Yemen #302 in Books > Travel > Middle East > Bahrain, Kuwait, Oman, Qatar, United-Arab-Emirates & Yemen #107018 in Books > Textbooks > Science & Mathematics

## Customer Reviews

This book is a valuable reference and aid to understanding the Rambam's classic: "Hilchos Kiddish HaChodesh" - Laws of the Sanctification of the New Moon. The book follows the text of the Rambam (Maimonides), and explains in detail each paragraph. The tables provided make interesting and useful comparisons to relevant sections (such as between current astronomical knowledge and the Rambam's figures, or the debate between Rav Shmuel and Rav Adda). It does tend to simplify a little too much in places, and the summaries at the end of each chapter maybe useful to some, would have been perhaps better placed at the back. The explanations however are full, and have clarified many different problems that I found insoluble with the Rambam, until reading this book.

A clear text with the obscure mathematics used by the Rambam clearly derived and explained. I highly recommend this book to anyone interested in understanding the complex greek mathematics used by the Rambam.
