When looking on the map you may think New Zealand looks so far away, but it is really just a plane flight away from some of the world's major cities: Sydney, Los Angeles, Shanghai and Tokyo. Once you are here in this little piece of heaven located in the South Pacific you will discover a technologically and socially advanced nation offering you the facilities that you are used to at home. Following the tips and suggestions in my guide book you will have no problem setting about New Zealand and visiting the areas that you would like to see. It offers incredible landscapes from rugged mountains to forest covered valleys to lovely lakes and beaches. You will even have a chance to see wildlife that exists nowhere else on the planet - from the kiwi bird to snow-dwelling parrots! There is something for everyone to enjoy from the adventurer to the person that is looking to soak in one of the many hot mineral pools around the country. I really enjoyed reading this kindle book , the author Dylan Hall really put a lot into it , there is a lot of information like hotels , place to eat , must see etc... Renting car is also a subject covered in this book as driving through the country is really enjoyable .The book also contains pictures to make reading more enjoyable , there is tips , websites etc... I just wished the prices had their prices to compare , It's a must if you're visiting New-Zealand !!

I love travelling so much and hopefully this one great place will be one of the places I can visit soon especially holiday is fast approaching. Never been to this place but many of my friends and family told me how awesome New Zealand is. This is a good guide for me to use while visiting the place. I love how hands on the author in this book. So much interaction on my part with the book. I am so much interested to learn more of the different places soon. For excellent holiday plan with my family. Sharing this to all members of my family!

good introduction, but Fodors is what you need to find where to stay/eat, etc.

good but not up to date

New Zealand by Hall is a great armchair ride around the two islands with suggestions of routes to take and how long to give yourself. Plus the reader is given where to stay and what to see. An edit by an English person would make this a great book.
