# The Steamer: Bud Furillo And The Golden Age Of L.A. Sports

## **Synopsis**

For nearly sixty years, Bud Furillo wrote and talked about sports in Southern California. For fifteen of those years, he authored a popular column for the Los Angeles Herald Examiner called The Steam Room, which gave him the nickname that lasted him for the rest of his life: "the Steamer.â⠬•As a reporter, columnist, editor, and pioneer of sports talk radio, the Steamer dished out insight and understanding to Southern California sports fans while Los Angeles grew into a sports empire. On his watch, L.A. acquired the Rams from Cleveland, the Dodgers from Brooklyn, and the Lakers from Minneapolis. He covered them all while they won championships for the city.In The Steamer: Bud Furillo and the Golden Age of L.A. Sports, Furilloââ ¬â,¢s son, Andy, himself a longtime newspaperman, uses his fatherââ ¬â,¢s lens to give focus to the cityââ ¬â,¢s rise as a sports empire. The Steamer is a history of a great sports town at its most dynamic, told from the point of view of a legendary reporter who used his phenomenal access to reveal the inside story of the greatest athletes and teams to ever play in Los Angeles.

I'm so glad I pre-ordered this wonderful book, and got a head start on everyone else when it arrived. Just couldn't put it down! "The Steamer," Bud Furillo, is well remembered among those of us who lived in Southern California during his heyday, but he wasn't such a home-towner that his writings won't also fascinate folks in New York, Chicago, or anywhere else lovers of great sports stories and/or lovers of fun writing happen to live. Bud's son Andy has organized the book by sport theme, so that just when you wish there was more about pro football in L.A., you're off with great stories about college basketball. Using Bud's own words and Andy's unique and important perspective as Bud's son, Andy has put together a wonderful read, all the better because notwithstanding that Andy is himself a great journalist and writer, he's very careful to make sure that the book is not about him, but about the father he loved so much. And what if you aren't a fan of hockey, basketball, baseball, football, horse racing, or even soccer? Not to worry. Andy's telling of Bud's stories about life in Southern California, about the business of pro and amateur sports, and about the amazing characters who became Bud's close friends, will entertain you even if you don't know the difference between a double play and a double Scotch (served up at one of the many neat L.A. watering holes Bud frequented). This is a fun book for everyone. Don't miss it!

Bud would have been deeply honored with how his son, Andy, chronicled his life. This book was so artfully written and so interesting to read. Anyone curious about the evolution of sports in the times that Furillo covered would/will love this book. Including the Steamer's columns really gave this tome punch and heart. Well done! A must-read for the sports enthusiast who loves a hefty helping of backstory along with an easy-to-learn history lesson.'This author's work is reminiscent of the style and tone of the subject he writes about. The apple doesn't fall far....

Good read. Rekindles memories of not only a great era of LA sports but those of national interest. Lakers, UCLA basketball, USC football, Kofax and the Dodgers among others. A colorful son writing, editing and structuring great stories about his very colorful father.

Furillo's book is a must-read, especially for anyone who either grew up or lived in greater Los Angeles when "The Steamer" was at his peak. Bud Furillo was a complex individual, and his son draws this out magnificently, the good, the not-so-good, the bad and the warts. The strength of this book is its honesty, captured amidst the elder Furillo's "life is for living" philosophy.

I was so lucky to grow up not only in this era of LA sports...but would buy 5-out of the 7-editions of

the Herald-Examiner every day to get the latest sports from probably the best sports section of any newspaper in the country!Bud Furillo was a beast in the world of sports.....The Herald sports section had the best writers, the best horse race coverage, the latest results and those guys had the most fun with the Dodgers, Rams, Angels, Lakers, Kings, USC, UCLA, boxing at the Olympic, wrestling....on-and-on it goes, in this very complete book on the golden days of LA sports.Great job by Andy and a "must-read" for an inside look at the glory days of Los Angeles sports, through the eyes of the incredible Steamer......!!!

This book is fantastic! The chapter on Ali alone is worth the price of the book. The early history of The Steamer's family brings some laughs and surprise. Fascinating. Andy Furillo is a good writer. You don't have to be a sports nut to enjoy this book. It has something for everybody. And I'm pretty sure you will enjoy sports more after you read it anyhow.
