The Cancer Revolution: A Groundbreaking Program To Reverse And Prevent Cancer

Synopsis

When it comes to cancer, conventional doctors are trained to treat their patients exclusively with surgery, radiation, and chemotherapy. These methods are grueling on the whole body - and they don't treat beyond the tumor or the cancer itself. The focus is on the disease, not the whole person - and because of this, the outcomes in conventional medicine can be bleak. But it doesn't have to be this way. Dr. Leigh Erin Connealy has developed a whole-person approach to treating cancer - and these treatments have helped thousands of patients through her Cancer Center for Healing. In *The Cancer Revolution*, Dr. Connealy shows you how to get to the root causes of cancer and the practical steps you can take to get back on the path to healing - from balancing your body's chemistry with nutritional supplements, following a healthy food plan, detoxifying your body and home, exercising regularly, getting deep restful sleep every night, practicing stress reduction techniques, and putting together a supportive healing team. Chemotherapy and radiation have their place in treatment, but in many cases, they are simply not enough, because cancer isn't caused by one thing, but by many different factors. All of these causes must be addressed, not just the tumor. *The Cancer Revolution* will equip you to make impactful, achievable lifestyle choices that fight the root of the disease, and that offer hope for recovery and a cancer-free life.

Customer Reviews

"Dr. Connealy understands the role of nutrition, epigenetics, and integrative approaches in healing cancer and even preventing cancer. Cancer is not a death sentence. There is always hope, and this book will empower you with knowledge that just might save your life or the life of a loved one."

“Ty M. Bollinger, author of the New York Times bestselling *The Truth About Cancer*, documentary film producer “Being diagnosed with cancer never needs to become a death sentence. In this groundbreaking book, Dr. Leigh Erin Connealy provides practical, easy-to-implement strategies that can complement your conventional plan to pave the path for healing and vitality. Highly recommended reading.” JJ Virgin, New York Times bestselling author of *The Virgin Diet*

Leigh Erin Connealy, MD, has been practicing medicine for thirty years. Dr. Connealy attended the University of Texas School of Public Health, and the University of Health Sciences Chicago Medical School. She completed her post-graduate training at the Harbor/UCLA Medical Center in Los Angeles, California. She is founder and medical director of the Center for New Medicine and Cancer Center for Healing in Irvine, California. Dr. Connealy’s work has been published in many scientific publications Her daily newsletter, Newport Natural Health, shares free tools for improving health with natural medicine.

Dr Connealy has been my doctor for thirty years. She has always been ahead of the curve...I truly consider her a gift from God. Much of what is in this book, I’ve been doing for years under her guidance, but it is also chock full of new information. I will use this as a reference guide for healthy living. While I see it as an important book for anyone fighting cancer, it is equally significant as a manual to prevent this hideous disease.

A must have book for anyone that is trying to prevent or help treat their cancer.

Great product!

Dr. Leigh Erin is a genius. This book has groundbreaking information for understanding cancer. A must read for everyone!

A great source of information

Whether you have cancer or want to prevent it, you will learn many things about things you can do that often your doctor doesn’t tell you. Nutrition, exercise, and fascinating things to add to your chemo and radiation.

I haven't finished it yet but it is packed with so much information it is def worth every penny. I would buy it for anyone I know dealing with a cancer diagnosis.

Great read! Would purchase again for friends.
