Customer Reviews

Dr. Don Colbert is a board-certified family practice medical doctor who specializes in nutritional medicine, treating over 17,000 patients. Since 1984, Dr. Colbert has helped thousands of patients regain good health and live pain free after years of suffering. A graduate of Oral Roberts School of Medicine, he has received extensive training in nutritional medicine. As a result, he has founded and developed his own nutritional supplement line, Divine Health Nutritional Products. Dr. Colbert also co-hosts Golden Eagle Network's "Your Health Matters" with his wife, Mary. They frequently lead health seminars at home and abroad, the address health and nutrition issues as guests on national

talk shows and news broadcasts. Don and Mary make their home in Central Florida.Ã Â

I was in a panic and needed to learn very quickly about Hepatitis C because a dear friend was diagnosed and I wanted to help. I purchased 5 books to learn, but I started with this book because it was small and easy to read. I not only learned a great deal QUICKLY, but the information was very useful along with the PRAYERS. I quickly left my panic stage and had enough information then to ask somewhat informed questions. The book is a little dated (not in the info.) since I called the phone number given in the book to ask about the supplements and was given a newer phone number. When I called the number (in Florida) I actually spoke to a nice gentleman who answered many more questions. He was working only a few feet from the desk of the famous Dr. Don Colbert. He told me the Dr. was there seeing patients but has no extra time for phone calls. He also told me to read more about supplements, etc. on their website: [www.Dr Colbert.com](http://www.DrColbert.com) Great info on the website. I also entered Dr. Colbert's name on You Tube and found many wonderful video's where he is talking and explaining many topics. What a wonderful man who is not only a caring doctor but a true Christian. I also, want to thank the gentleman who rated this book with 5 stars for his review. It gives me HOPE to know that he has regained his health even after unsuccessful treatments for Hep. C.....but following the nutrition and supplement advice from this wonderful doctor!!

Excellent book I like all of his books.

Arrived on time and was what expected. Thanks.

I strongly disagree with the poor reviews on "The Bible Cure for Hepatitis & Hepatitis C". This is not a medical encyclopedia, it is a booklet. I have Hep C, so I have read many books on the subject and listened closely to the doctors. I didn't find anything in this booklet that contradicts the information given by these sources. This booklet about this disease is written accurately and concisely. I went through the HORRIBLE treatment for Hep C and it failed. So I was left with faith and nutrition to boost my immune system and keep the Hep C from advancing. I have followed DOCTOR Colbert's plan for years, not only has the Hep C not progressed, but I am much healthier in every area. I find it hard to believe that anyone has a negative opinion of adding good nutrition, positive thinking and/or faith to the current treatment available to the unfortunate people that have their life threatened by this virus.

If one is seeking a book of ethnic medicines based on ancient Biblical diet & herbs, this is not such a book. Rather, it a Basic Guide for Christians who want the essential information concisely and with Biblical based Christian prayer guidance. As a traditional Catholic, I find this booklet valuable though written apparently by a non-Catholic. Dr Colbert describes the medical treatment, advises doing nothing apart from the Physician, lists the most beneficial vegetables, nutrients, vitamins, herbs and those he thinks contraindicatory. He indicates the medical basis for what he writes. On contraindicated foods, I disagree strongly that Milk is one such food -- because having properties that block excess iron uptake, vital for fighting HCV -- but altogether there is a good basic guide to everything. Nor do I find dairy fats problematic; but both milk and dairy fat (high in fat soluble vitamins) tolerance are highly individualistic. If one is a dairy foods aficionado, not counting ice cream sugar cravers, then one may have no trouble digesting them. Fighting HCV, my diet is basically Mediterranean and Dairy (possibly from my nordic genes) -- plentiful in grains, fruits, all kinds of cheeses & whole milk, nuts, raw vegetable salads, with some meat & fish. Being a little too "dogmatic" in the supposed foods-to-avoid results in less than 5 stars. Interferon-Ribavirin Therapy is discussed. Recommended are herbs like Milk Thistle (*Silibum marianum*) and Bupleurum, vegetables like Artichokes, supplements like Thymus extract -- it is almost all here. The herbs list can be expanded to include moderate tea of *Phyllanthus urinaria* (whole herb available online from Tropilab, Surinam) and some of the Chinese -- which one will encounter in the literature, taking care not to take hepatic-contraindicated herbs, information today being pretty well-balanced in warning about such as might damage the liver, but care is necessary in experimenting. Until new options arrive for medical treatment (I write in latter 2006.), there is about everything here, concisely less than 100 pages, and with beautiful Christian methodology in putting it altogether in one's life to fight the battle.

I can't believe this guy is a MD. He is coasting on his popularity based on these books he writes. He can go on and on with these books that cater to people who just don't know any better. People fall for anything they read.

Colbert's "Bible Cure for _____" series has reached a new low in the current trend of irresponsible, mass-marketed, religiously-based "health" literature. Colbert's sense of ethics must be nonexistent to continue producing junk like this series, with "...Hepatitis C" being the most blatantly stupid title. The poor sap who places trust in Colbert's advice is surely doing himself a disservice, but Colbert is to blame for exploiting his medical title and current popularity to, well, kill people who don't know any

better.
