Customer Reviews

I'm absolutely loving this book so far, it has some beautifully designed mandalas that come both in the choice of white or black background paper. The paper itself in this one is a lot better quality and thicker than their previous books and you can tell just by the touch as well as the tooth of the paper. Every page has nice funky designs on the backside that are black sided. There is a wide range of different mandalas to choose from and each you get the choice between the two colored backgrounds which makes it nice to play around with and change it up. I really do like that because I can color it one way on the white paper and do something drastically different with the black paper like using neon gel pens for example. As far as the book is concerned, it is sturdy and quite thick as there is about 60 pages or so which makes this their biggest book I have colored in so far. This book would easily work well with any medium: colored pencils, markers or gel pens. So far I have only used gel pens in it, but the paper really is quite thick anything should lay down well. Also there is mainly bigger spaces in the mandalas, but some smaller detailed spaces as well. I personally like the bigger spaced look. Overall, this really is a great book in my opinion and most of all I love that they give you the choices between the two colored backgrounds as it makes it more fun and more options!

This is a great buy. It's like two books in one! I don't know if I want to change my color schemes but I guess that's something I have time to think about. This company has amazing quality paper, I love coloring on it it just soaks up ink and everything lays down very well. There are some intricate designs and some very simple which is nice to have a choice of how much time I have to spare. I'm always excited to see what this company will put out next

I really like this book! I love mandalas! This book's mandalas are not super intricate but still nice. The mandalas are printed twice, once with a white background, then with a black background. The pictures are printed single sided and the back of each page is black with a pattern so if you use markers, no worries about bleeding. Another great book by Papeterie Bleu!

AOK.

This mandala book is a delight. I love the black background which gives an instant matting for framing your work of art. I have bought other books by this artist and have only good reviews for all of the books.

Ok designs, paper was too thin for alcohol based markers like the prismacolors or copic. Will be ok for any water based marker, gel pens or colored pencil.

very nice.

Cheesy designs! Hollis W
