Customer Reviews

The ultimate full-color illustrated companion to the award-winning, longest-running web series, *Red vs. Blue*-a parody of the military science fiction video game *Halo* hailed as "Clerks-meets-Star Wars." (Village Voice)

Discover everything you've always wanted to know about Simmons, Grif, Sarge, Donut, Tex, Sheila the tank, Caboose, Church, and the rest of the Red and Blue team members stationed in the box canyon known as Blood Gulch, with this full-color companion guide to the multiple-award-winning, long-running, comic science-fiction web series *Red vs. Blue*. In *Red vs.*

Blue: The Ultimate Fan Guide, the series creators at Rooster Teeth bring together more than a decade's worth of ephemera and behind-the-scenes information. Inside you'll find:

- Character dossiers
- Character-driven lists, including "The Wisdom of Caboose"
- Charts and statistics mapping out character, world, and episode trivia, such as how many times Simmons has sucked up to Sarge over the course of the series
- The best Red vs. Blue quotes ever of all time
- Alternate stories and unexplored character arcs
- Spotlights on the Red vs. Blue cast and crew, who share unique anecdotes, behind-the-scenes stories, and insights into the award-winning series
- Shooting scripts, including cut lines, deleted scenes, and trivia
- More than 200 full-color images
- And more!

Everyone, everyone, look unto me! I possess the Ultimate Fan Guide! I have seen the wondrous pages, and you will envy me, as though I were a victorious red and not a dirty blue! I regret nothing about buying this book, for I have purchased a guide which few fans have dared to buy! My fanatic quest is over. I can read Caboose's wisdom. It's so... stupid. This is the best ultimate fan guide... of all time.

This book is VERY well written and absolutely incredible! It is just as funny as the show and a fun read! High recommendation for fans of RvB! And P.S. Suck our balls. (If you've seen season 12 you'll know that reference.)

Whether you've been a loyal follower of the Reds and Blues since the early days of Blood Gulch or you've only recently discovered the franchise, you're sure to enjoy this guidebook. Yes, most of the information about everyone's favorite hilariously incompetent space marines can be found at online wikis for free, but that's not the point. The point is that this book presents all of that (let's face it, often convoluted and confusing) information in a well-written, well-organized, and highly entertaining manner, while offering enough brand new material to keep readers from feeling ripped off. One giant warning: **INSIDE THERE BE SPOILERS.** I mean, this should be obvious from the "guidebook" title, I suppose, but from the very first pages, major series plot twists are revealed and discussed in depth without much fanfare, so if you haven't finished watching all 13 seasons of this amazing show yet, you might want to hold off on purchasing/opening this book, just to avoid ruining all the great surprises that are still in store for you. If I have one small complaint, it is that the book focuses heavily on the Freelancer and Chorus portions of the series while treating the Blood Gulch years as little more than background information. Don't get me wrong; I love the direction and scope the

storyline took in the later seasons, but I would have appreciated more content devoted especially to the series' quirky, meandering beginnings. All in all, though, this book is a must have for any true RvB fan. Makes a great gift for the holidays!

Great book! Love learning about the characters of RvB. The five stars are for the book itself. The rest of this review is for the seller Green Street Books. I was super excited to get this book! I've looked at it from a friend, and wanted one for myself, but I was a little sad when I opened the package. My book arrived with a sticker on the FRONT. It could have had it on the back by the barcode or something, but the reason why this is a big deal is because when I took the sticker off carefully, it peeled the book cover. This was super irritating and upsetting. This is a brand new book and it looks terrible. I am not happy. I looked closer at the book where the sticker was, and the paper (paperback book of course) looked wrinkled, as if they used the sticker to hide damage. This seller had great reviews, so I trusted to get a nice new book, but I guess next time I will not buy anything from this seller. I suggest to buy this book from Rooster Teeth's website or from itself. It may be more money, but it would probably arrive in better condition. I already gave some seller feedback, but DO NOT buy from Green Street Books.

That being said there are some things that the book itself is missing, in the character dossier section there is no entry for Agent Florida/Butch Flowers, Junior, or any of the AI programs. I would have loved to have seen some information about Flowers and his decent from Freelancer, into the canyons at blood gulch. The lack of a profile for Junior also feels like a wasted opportunity. I also think that some additional information about the AI fragments would have been interesting to read about. Regardless the book is well put together that the lack of what is listed above doesn't distract from the book. Regardless the book provides an excellent inside look to the daily lives of our favorite characters and provides additional information about characters back stories which had been previously undisclosed (or not officially confirmed until this book). The insights provided are more than worth buying the book. What adds to the value is the design and layout of the book and the pictures/illustrations are also fitting and add to the experience of the book in general. But in conclusion the book is great and definitely something every Red vs Blue fan should add to their collection!

If you love RvB this is your book!! still can't figure out where we discovered Someone was Someone Else's mother (You know what I'm saying if you have watched RvB a few times thru); it's not on the

show except a vague reference to it when Epsilon Church says "You better be happy mother isn't around to hear you say that" during the Chorus trilogy. (I don't count that one time Someone Else talked about his/her mother. That seemed totally generic.) I can't find this revelation on the PSAs or other Rooster teeth content. Ha, Revelation! See what I did there? The heft and quality make it close to a coffee table book. I would leave it out for my nerd friends, definitely!

Hubby is a HUGE fan of Red vs. Bleu and all things Rooster Teeth. He blew through this book in two days as a good chunk of the information was something he'd already known based on being a fan of them for so long. He enjoyed it, and now it's part of his ever growing Rooster Teeth collection and he's happy as a clam because of it. No need to repurchase, but if anyone is a RT/RvB fan - this is a good little guide to have.

I am a total Red Vs Blue fan and I love this book. It is very well organized, you can tell that it is written by the same people who wrote the scripts. I watch Red Vs Blue all the time and even this book has some information I had no knowledge of. This is a book that an RvB fan should definitely get!
