Customer Reviews

Explore the world through accurate and up-to-date mapping.

I have a couple of other Collins maps for Scotland. This one does have more information about Castles than the other Collins maps. However, if you can plan ahead, I recommend getting the Collins Touring Map of Scotland. It has all the castles marked on it, plus a lot of other things worth seeing. If you have time and can use the Touring Map along with doing some Internet research ahead of time, I think you'll get more information from Touring Map. That said, if it's all castles for you, then go with this map. It does have castle details and it folds out smaller than the Touring Map, making it easier to use in the car.

The map itself seems great, however; the condition it showed up in was not so great. The map was stained and stuck together from getting wet. When I pulled it apart, some sections were not legible. The packaging was not damaged so this happened prior to shipping.

Excellent map, castle descriptions, history and pictures which help in mapping out a journey to see as many as possible
