Puppy Training: The Ultimate Guide To Housebreak Your Puppy In Just 7 Days: Puppy Training, Dog Training, Puppy House Breaking, Puppy Housetraining, House ... Training, Puppy Training Guide, Dog Tricks)

Synopsis

You're excited about going to pick up your new puppy! You want to give them the best possible training. And you want them to learn new tricks! If it's all yes, you've found the right book. You've just got your new puppy, but OH NO, they're peeing in your house, what do you do? You take them outside to pee in a spot but they start running around instead. You now have a nightmare on your hands! It isn't how you imagined. They're chewing on things, barking loudly! This is everything you didn't think it would be when you first picked them up, you're now thinking, what did you let yourself in for? STOP! You started off in the wrong way, you got a new puppy and thought they would obey your every command and they would be your little angel. That was short minded and that rarely happens. You have to teach them and show them the way. Puppy training can be easy or hard, it's really down to you to decide. Most people will just go online, look at a few videos and then carry on doing the same thing and wonder why their new puppy isn't acting the way they want them to. You can avoid all the accidents, teach good behaviour and turn your nightmare into one which is lovable and your friends will want to take them home with them. Dogs are intelligent, and if you teach them correctly they will act accordingly, think of your new puppy as a child, teach them well and they will be well mannered. I want you to get started the right way, so you need to know exactly what you have to do to teach your puppy the right way, here is what you will learn: The capabilities of your puppy in their young age. How to reinforce the lessons taught. Dealing with accidents properly for positive reinforcement of behavior. Your ability to use your dog's intelligence for reinforcement of training, as well as learning new commands. Steps for proper crate training. Did I forget to mention, if done correctly this can all be achieved in 7 days!! Puppy Training is What You Put In To It. Get started today, teach your puppy the right way and avoid nightmares which can be avoided. Scroll to the top of this page and CLICK BUY NOW!

Customer Reviews

So, this book is all about puppy. I've read about dog training and it's helpful but this book is specifically made for puppy training which is great. My kids already done a good job on training and shaping or generally housebreaking our dog and since he's just a puppy, this book is much more fitting. All the training for puppies, a step by step things to do to introduce the world he's within now. Amazing book and really helpful!

This is a very comprehensive book for training puppies. I like the techniques being laid down in this book because it is easy and doable. I find this book very professional as to the ways it relays its ideas on puppy training. As I applied these steps, I really find it effective and easy. My pups are going to love these trainings and my children too. Thanks to this book, it's really helps!

I have a new puppy, and I wish from the beginning to teach him some basic things. This book is easy to understand, and I've already started training with my dog. Frankly, this is a great joy for me, because the puppy is cheerfully. I enjoy working with him and the advice in this book are of great help. Sincere recommended!

This book is very helpful! There are many tips listed inside on how to potty train your puppy in seven days. Everything is very organized and straight to the point. Good thing, it still has the things I need

to know and I love how the tips are presented. Another great book about dogs from this author. I am so happy we got this book to help us! The training they will be much more fun and exciting. I can honestly say that this is a high quality book about puppy training. I have learned many useful information from this book. Very well written and easy to understand.

I was very hesitant to get a dog for my kids until my son showed me this. I was worried about a pet being extra weight on my shoulders at home, but this guide totally opened my eyes. Very useful for first time dog owners who have kids! Gave me loads of awesome tips on house-breaking and make puppy-parenting easy for myself and everyone at home. Great find!

I was granted a week of vacation leave (yehey!) which gave me a chance to have a full time bonding for my shih tsu Sasha. With the help of this book, I have learned a lot of things that I was not aware of about my dog. This is because I am always out :(well good thing, I know better now. Great help here Peter! Very much appreciated!

I have been interested in puppy training and grooming for a long time now and want to start my own little center so learning' two skills on my own. this puppy training book has lot of positive approaches which i really appreciate and like and can help new owners to train their pooch in just a weeks time.

I tried it on my new puppy and it worked in 7 days. I'd say that was a success. The dogs diet is important and you need patience, but the tips in this book work.
