Wishes Fulfilled: Mastering The Art Of Manifesting

Synopsis

Wishes Fulfilled is designed to take you on a voyage of discovery, wherein you can begin to tap into the amazing manifesting powers that you possess within you and create a life in which all that you imagine for yourself becomes a present fact. Dr. Wayne W. Dyer explores, for the first time, the region of your highest self and definitively shows you how you can truly change your concept of yourself, embark upon a God-realized way of living, and fulfill the spiritual truth that with God all things are possible - and "all things" mean that nothing is left out. By practicing the specific technique of retraining your subconscious mind, you are encouraged to not only place into your imagination what you would like to manifest for yourself, but you are given the specifics for living out your highest calling and staying connected to your source of being. From the lofty perspective of your highest self, you will learn how to train your imagination in a new way. Your wishes - all of them - can indeed be fulfilled!

Customer Reviews

I have read most all of Dr. Dyers books but this one I can't say I was really crazy about, not sure just why but in some places it seemed to be an ego trip and some places I liked very much, however I don't think I would recommend it someone else, especially if they had not read the books he wrote before this one, most of what is in this book were in some of his other books. I think he is great but this book just didn't get much of my attention, may be if I hadn't read so many of the others it would have been better.

Dr. Dyer's style is easy, to the point, one gets the feeling that he is reading you the book. The subject matter starts to unravel with the very first few words drawing you in deeper and deeper with each chapter. You will lead a better life if you apply his teachings, and make a difference in this world.

Life changing book. It's so wonderful to listen to his calming voice on audible!

I am about 3/4 through reading this book. At this point, the positives, for me, are: The book puts together most of the advice I have read, in other practical books and videos, for attracting what you want in/for life. If, I had to choose any singular book or video (similar to the Secret +) for practical guidance, in attracting what you want, this is the book I would choose. It is, I believe, sincerely written and the author wishes to pass great knowledge along; not just to make a buck off the gullible like with some of these type books. The negatives: Unnecessary, in my opinion, repetitiveness. Some of the terms used, to me, are not clearly defined up front. Another negative, for me, is the book instructs us to say and believe, we are GOD and as Gods we can command God to accomplish our wishes. Biblical references, provided in relation to this, do not convince me to support this. There are deeper explanations in the book concerning this; the author, I believe, does not mean this to be negative, in any way, I just don't agree with it myself. One would have to read the in depth explanation to make a subjective judgement regarding this. Also there are biblical references throughout the book, which, in my opinion, are not appropriate venues concerning worldly knowledge and practical advice; what is in the book, in my opinion, should be supported, without biblical references, in aid of author's viewpoints. These are mixed into the book. I would give this book, which I really enjoyed and appreciated, five stars but due the few negatives will give it a four. A final - this book would make a very good DVD but seems one is not available.

"Wishes Fulfilled: Mastering the Art of Manifesting" by Dr. Wayne Dyer is Awesome! It is one of his best books and one of the best books about manifesting that I have read so far. I enjoy Wayne's writing style more in his latest books because I feel that his sense of humor comes through better than in his earlier works. The information is always useful and powerful! I have been meditating using the "I AM" audio that he mentions in his book and between reading "Wishes Fulfilled" and doing the daily meditations I feel SO much better--more healthy and grounded and better able to deal with every day challenges (opportunities!) I highly recommend "Wishes Fulfilled" (and the "I AM"

Meditations, too:) for anyone who wants to be healthier, wealthier, happier and more relaxed and grounded in their lives. Best of Health and Success, Michael Twomey P.s. Please have an open mind and "sift for the gold" (as a teacher of mine once said) because some of the topics may not fit with your belief structure and some of it may seem totally "out there" yet you can get tremendous benefit from reading and applying the information in this book.

This book has been a Godsend. If you have been stuck in a rut and you are not where you want to be in life, please read this book. I feel so uplifted and inspired to do everything I've ever imagined doing. When you get a certain age, you may feel that it's too late to change careers or go after your dreams, well, this book gives you permission to fulfill everything you've ever dreamed of doing, just by using your imagination. There's a quote by Dr. Dwyer, "You'll see it, when you believe it.," and it just resonates with me. You must assume that you already are what you want to be, and then, live by faith in that assumption. (Neville). It's a must read if you want the life you've always dreamed of.

These CDs are changing my life! I've been a big fan of Wayne Dyer for years and I so appreciate the lessons and techniques he shares. None of us come into this world with an instruction manual but Wayne Dyer's research and guidance makes it easier to find our inner selves. Using Neville Goddard's work, "The Power of Awareness", Dr. Dyer posits that a universal spirit dwells in each one of us. Once we become connected to that spirit and interact with others through love, we find peace, happiness, and our heart's desire. I will listen to this over and over. I'm also learning to meditate using "Meditations for Manifesting" by Dr. Wayne Dyer. I feel so much better about life and possibilities. I feel like I've been given 'the keys to the kingdom'. If you are looking for higher consciousness and a better life, you'll definitely want to own this set.
