Unearthing Ancient America: The Lost Sagas Of Conquerors, Castaways, And Scoundrels

Synopsis

Does Colorado's Grand Canyon hide an ancient city found by a Smithsonian Institution photographer? Did the Vikings beat Columbus to the New World using a fiber-optic navigational instrument? Who built a colossal water reservoir in Iowa long before the first European settlers arrived? What secret have the "Giants of the California Desert" preserved for more than a thousand years? These are just some of the intriguing questions posed and answered by expert researchers in *Unearthing Ancient America*. They go on to tackle a broad variety of archaeological enigmas shunned as too heretical for consideration by conventional scholars: a Roman figurine found off the New Jersey coast, North African gold in Illinois from a long-vanished kingdom, an Egyptian knife removed from a centuries-old tree in California, a fifth century Christian church in Connecticut, a prehistoric harbor underwater in the Bahamas, Easter Island's cultural connections with pre-modern Japan, and voyagers to Maine from Stone Age Scotland. *Unearthing Ancient America* contains a wealth of fresh, occasionally suppressed evidence documenting the tremendous impact made on our continent by overseas visitors hundreds and even thousands of years before Columbus. The disclosures presented here re-write the prehistory of our country and provide a dramatic panorama of the past you never imagined before. The distinguished list of contributing writers to *Unearthing Ancient America* includes: Wayne May, founder and publisher of *Ancient American* magazine; Gunnar Thompson, PhD, author of *American Discovery*; Nobuhiro Yoshida, language professor from the University of Kyushu; William Donato, the world's leading authority on the "Bimini Road"; David Hatcher Childress, founder of The World Explorers Club and head of Adventures Unlimited Press.

Frank Joseph became the editor-in-chief of Ancient American magazine when it was founded in 1993. His 20 books, which have been published in various languages throughout the world, include The Atlantis Encyclopedia, Discovering the Mysteries of Ancient America, and Opening the Ark of the Covenant. A frequent radio talk-show guest, he has been interviewed by Shirley MacLaine, Art Bell, Jeff Rense, Rob McConnell, and numerous other broadcast hosts. His lecture appearances include presentations throughout Japan and Britain, including conventions and seminars with the Association for Research and Enlightenment (the Edgar Cayce organization). Joseph lives in Wisconsin with his wife and son.

I have, in the past, purchased another book by Frank Joseph and I found "Unearthing Ancient America" as interesting as the first book. There is so much information in this book that would be hard to find anywhere else. I thoroughly enjoyed this book and will read it again soon.

God I loved this book!! I love my country and to learn of it's amazing and utterly mind blowing bits on to the wall facts that were kept from us. ON PURPOSE! America has a past that's better than any movie ever made. These are facts and the author does a great job proving everything. There are pictures also which I enjoyed tremendously! Buy this book! You will be so glad you did. Don't lend it out tho. You probably won't get it back!

Great interesting book on prehistory of North America!

I thoroughly enjoyed this book. If you are an Ancient History buff, but not very knowledgeable in Ancient American History, this fills a gap in the books out there. It's a very quick read and it opens the door to further research avenues and topics. BUT if you are well versed in this topic then this book will do nothing for you most likely. This is a great intro book, nothing more. This would be a great book for homeschooling as well. The topics and chapters are fast enough to keep a kid interested, or at least not too bored.

Very bizarre and interesting collection of newspaper articles, research papers & collected stories with a lot of intrigue that I wish I could have half a chance to look into, real or not. At the very least, this one will keep you thinking and more than entertained.

This book has opened up wonderful new vistas regarding the ancient history of the Americas. I was astounded by the amount of misinformation that we, as children, were taught about our early history.

Enjoyed seeing information that I hadn't found elsewhere.

great book
