Customer Reviews

Great for holiday gift giving! I really enjoyed these books. They all but breathe. They captured my interest on page one with their lively layout, crisp colors that snap to attention, adorable animated characters that lead you in a timely pace and lots of fun facts! I became so involved in the presentation, I forgot I was reading and felt like I was back at school and it was Film Day! --Story Monsters Ink Magazine
The books are perfect for both boys and girls, ages 4 to 8 and parents and grandparents will love them as well. --Capper's Farmer Magazine

Red Combines with Casey & Friends! Combines teaches children how Cody and Kellie, the

combines of Happy Skies Farm, harvest crops by gathering, separating, and unloading grain. Learn the difference between a corn header and grain header, how crops are processed and what happens to the grain at each stage.

My 2-year-old loves this book! It is in-depth enough to engage a much older child, though. Gives an overview of the history of harvesting and the inner workings of combines. It is hard to find factual children's books about farm machinery. This is one of the better ones out there! Can't wait for the companion "Planters and Cultivators" to come out!

Very detailed book. Our 4 year old that wants to be a farmer loves it!! It does contain a lot more info than most children's book do.

There are not many kids books about combines available, and my son is crazy about them. This book has interesting text features and lots of info, as well as pictures. A great find!

My Grandson loves his books. These are a little hard to read as bedtime stories but he loves going through them.

A book with a lot of information and wonderful pictures. My grandson loves to look at them.

Great series of books, with great detail to show kids what mom and dad do and how the machines run! Excited to buy the rest!!!

Great book for preschoolers!
