Me Oh Maya #13 (Time Warp Trio)

Synopsis

One minute Joe, Sam, and Fred are shooting hoops in Brooklyn; the next they're on a court that is definitely not in New York, and surrounded by a bunch of players wearing feathered headdresses and not much else. And the other team is saying something about losers being the next blood sacrifices. Uh-oh. Tossed back in time to Chich?n Itz?, Mexico, in the year A.D. 1000, the Time Warp Trio is at it again. But can the guys score and find The Book before the Mayan High Priest and his team force them into "sudden death" overtime?

Grade 3-5-The Time Warp Trio takes yet another unscheduled trip to the past. One moment Fred, Sam, and Joe are teasing one another on the basketball court in Brooklyn, and the next, they're playing for their lives on a Mayan ball court. The three boys must rely on their wits, one another, and the kindness of strangers to get out of a dreadful jam. Newly independent readers will find plenty of momentum in the dialogue and action. Scieszka introduces just enough about the Mayan people to set up plenty of puns and even a little bathroom humor. McCauley's cartoons underscore the crazy sense of high adventure. This time-tested formula succeeds again. Pat Leach, Lincoln City Libraries,

Gr. 2-6. Scieszka's ever-popular Time Warp Trio is off again, this time to Chichen Itza, Mexico, circa 1000 C. E. Joe, Sam, and Fred land in the middle of an ancient ball game, similar to basketball. Unfortunately, an evil high priest, Kakapupahed, is determined to sacrifice the kids to appease the harvest gods. Joe, Sam, and Fred have other ideas, of course, and with the help of the high priest's nephew, Jun, the three manage to embarrass and depose Kakapupahed, save their own lives, and return safely to Brooklyn. As in the earlier titles, this story is full of improbable situations, anachronisms, bad puns, and silly high jinks--in short, all the qualities that have endeared the author to young readers for so many years. At the same time, Scieszka manages to work in a fair amount of information about Mayan culture, especially the calendar and number system, without ruining the story. McCauley's black-and-white art is appropriately goofy. For series fans as well as newly independent and reluctant readers. Kay WeismanCopyright © American Library Association. This is a series of stories that the grandkids is following. I am sure that they have read every one of the books..

Have you ever had a book that can bring you back in the past to 1000A.D? Well Fred, Sam, and Joe had one because they are the Time Warp Trio. They got there hands on this book by their uncle and ever since their life was miserable. This book is called Me Oh Maya, by Jon Scezka. It all takes place in the court yard. One day Fred, Sam, and Joe were playing Horse on the Basketball court. When Sam was writing the score in Mayan numbers all of a sudden green mist started to gather up like fog. Before they knew it they were warping back to the year 1000A.D. When they arrived they were in a town called Chichen Itza. In Chichen Itza they had to find the book that brought them there. When they were looking they encountered a Mayan basketball court. Fred started showing the town's people how good he was in basketball. When Fred made a shot with a technique they never saw before they all went wild and they worshiped them. The king found out that they were getting worshiped so he brought them to the palace. The king tied them up to a tree to feed them to the jaguar because he thought that they were getting powerful. When they were tied up to the tree they saw black eyes. All of a sudden a boy jumped out of the bushes and untied him. The boy's name was Jun. He was one of the cheering fans when Fred made the shot. He untied them and he

brought them to his house. When they got there they made a plan to get rid of the king because he was a horrible king. Jun's mom made a plan to play a basketball game with him because the mom knew that he was terrible at it. The next day it was time to play basketball. Read this book to find out what happened next. I recommend this book to all the book lovers in the world. I can relate to this because I have two siblings and including me that makes three. We had wild adventures and we don't have to go back in to time to have those adventures. When you read this book I think that you are going to be thrilled. The fun doesn't stop when you're done reading one of their books; there is a series of these books are called the Time Warp Trio. They are easy to read so anyone can read them. When I read this book I had fun. It is funny how they get threw things like playing basketball games to rule a whole city. If I enjoyed it, I think you will enjoy it too.

I'm a big fan of the Time Warp Trio series. The jokes and puns are inventive. The three boys interact well together. The informative bits, (Maya calendar, number system), are interesting without breaking the flow of the adventure. But. The first few volumes have more of a sense of fun and adventure. These later books have a little bit of a weary, here-we-go-again, flavor, and reading them seems more like a task than an entertainment. Maybe that's inevitable when you have an invariable formula for each book. And it's probably OK for big fans of the series. But, this might not be where to start a new reader of the series. And remember, these books are all so much better than the fart/poop/booger books that are usually flogged off on "boys and reluctant readers", whatever that dismissive description is supposed to mean.

The time hopping friends are back again, this time they are 1000 years in the past in Ancient Mexico. My kids love the Time Warp Trio. Knights of the Kitchen Table was the first chapter book my 8 year read, and he was hooked. This book is great for the reluctant readers (generally boys). Sam and company find adventure, play some sports, and have some fun with puns (as usual). I gave this book only 4 stars because some of the names in the story may be hard to pronounce for young readers.

This book was entertaining. My six-year-old listened to it avidly and thought it was funny. We read it as part of our homeschool unit on the Maya people. It did present some history, but I felt that the irreverant and flippant tone of most of the book was disrespectful and unnecessary (e.g. the character named "Kakapupuhed"). The author seems to have the perspective that history is boring and needs to be made more interesting so that children will find it appealing. It was fun and it was

funny, but I didn't think it was worthwhile for building his character or his understanding of history or other cultures.

Time Warp Trio Me oh Maya I read the Time Warp Trio: Me oh Maya. It was a good book. My favorite part was when they played basketball. My least favorite part was when they went back in time because it wasn't really that exciting. This is a great book for people who like short books. I think that the book was okay, but it could be better.

This book is about 3 kids that go to back on the past in Mexico.THEY challeng some king for a basketball game wiht no hands.And you have to fin out why they challeng this king.IF YOU LIKE FUNNY BOOKS THIS IS THE ONE FOR YOU!!!

In the story of Me Oh Maya,Three boys are playing basketball, when a book time travels to Mexico, 1,000 years ago.This book is funny and humorous book, and It shows numbers of the Mayan tribe.I hope you like the book too.
