It's good for what it is. It's the non-fiction, history story of monster trucking. I was expecting a fiction, storybook based on the cover.

I have already read this to my 4 year old great grandson two times and I just got it. He actually hugged the book and said he was never going to let it go. I think it is wonderful that I have the option of buying used books from all over the U.S.! Nice big print too. Explains how Monster Trucking got started with Big Foot.

My 4 yr old loves this story. It has factual info and real pics which can be difficult to find that is appropriate for his age. Would buy again.

Great book for any monster truck lover. It was a hit with my 3 yr old. Goes into the background of monster trucks a little and gives you some interesting facts about monster trucks. A few of the trucks shown are monster jam trucks. No grave digger though which is my sons fav.

good book

My Nephew is crazy about monster trucks, he lives in India and you do not find books on monster truck. As he is just 4 yr olds he wants someone to keep reading this book to him. This is one of the best gift i have sent him.

My son (3) loves monster trucks. He loves this book. This book is a little "older" as it doesn't really focus on the Monster Jam types of monster trucks but discusses the history of Big Foot and some of the oldies but goodies monster trucks. That doesn't seem to matter to my son as it works and is in heavy rotation at bedtime.
