James W. Rodgers, Ph.D., teacher, director, and published playwright, has taught for more than 35 years and serves as a department chair in colleges and universities in Ohio, Michigan, New Jersey, and Kentucky. He is currently a full professor at the University of Kentucky. Wanda C. Rodgers has taught in five states and in a variety of schools. She is currently teaching Drama, English, and Communications at Woodford County High School in Versailles, Kentucky, where she has been named Outstanding Teacher of the Year for Woodford County.

What a fabulous book for the beginning community theater director! This gem covers every topic you can think of and then some - giving you a head start before you hear those awesome words "Would you like to direct this play?" I found parts of it rather detailed and tedious on first reading since I have no first-hand knowledge of directing. However, I finished it feeling like I have enough grasp to feel a little more confident if someone gave me a chance to direct! I love the step-by-step approach which certainly helps you feel like you're acquiring enough knowledge and understanding to consider taking up such a challenge as directing. Perfect for all levels from high schools to junior

colleges to community theaters. Be sure to put your name in a prominent place on the inside because people will be borrowing it from you again and again! (Worth a second - and third - read for sure!)

As a playwright and director, I found this book to be necessary for survival, just like the title states. It's written in a format that's easy to use and highly accessible. Many 'Help Books' are unfortunately written by people who have not actually lived the life. Delightfully, this is not the case with Play Director's Survival Kit. It's easy to see that James W. Rodgers and Wanda C. Rodgers have been in the trenches themselves. They make it easy for both novices and seasoned professionals to direct and produce theatre in any school or community setting.

Was a gift for my granddaughter....she loved it and used it and continues to use it.....

Purchased for daughter-for college studies

This was just what I was looking for. Lots of good tips for new directors. Service was good, came in just a few days.

This is the book of practicalities--perfect for beginning school and community theatre play directors. Everything from sample audition announcements to production time lines to a list of plays that work well in schools and community theatres.

Excellent book for anyone new to the role of play director or organizer--which I am. Lots of checklists that are helpful as well.

Just what I needed for my class...concise and to the point. Excellent tool for directing.
