What did surprise me is that it $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ $\hat{a}_{,,\phi}$ s nearly 400 pages of excellent tips and techniques to turn the beginning hunter into a well-prepared outdoorsman.If you $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ $\hat{a}_{,,\phi}$ re new to hunting, Rinella breaks down the basics of gear, scouting, and tactics. His advice is quite sound and he pulls from other hunters to strengthen the wealth of knowledge contained inside the covers. For more seasoned hunters, there is a whole chapter dedicated to the vast amount of North American big game species that the author has hunted over his life. Most of us haven $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ $\hat{a}_{,,\phi}$ t had the opportunity to chase Dall Sheep in the mountains of Alaska yet, so the book provides us with a nice introduction to mountain sheep hunting. The book ends with several recipes for big game. Rinella hosts an excellent show on the Sportsman Channel called

Steven is a super knowledgeable guy. His show meat eater is a one of the only hunting shows I will watch because it's one of the only ones where they are getting after it and not advertising for this

brand and that every 5 seconds. He knows his craft (or if not, he fakes it super super well) and is good at sharing his knowledge. I love that he throws in recipes as well. Granted I may never use some of them, but still a great additive to the book.

Bought this for my mother. I don't eat meat, but she wanted this book and I bought it for her. She reads it and says it is very informative and she will put the information to use. She is an excellent hunter, but she likes to try new things, which she says this book will help. She has already tried some of the recipes and butcher methods. I know she will get good use of this.

Wow this is a great book! If you are new to hunting or have been hunting your entire life you will learn something from this book. Rinella is a wordsmith and articulates the information in an intelligent and entertaining way. The author is the host of a TV show and podcast, both called MeatEater and both are very entertaining and informative. This is a book that you will have to continually reference as situations arise. DO NOT neglect the recipes in the back of the book.

This is a very informative read, I am an experienced hunter but gained a lot of knowledge from this book. I highly recommend it to all the new hunters or hunters that have never butchered their own meat. I have always done my own game butchering and this book gave me a few new recipes and ideas. Great book!

Unparalleled intro to Big Game hunting, especially those looking to get into US Western pursuits or looking for a refresher/new perspective. Steve Rinella writes extremely well - entertaining, informative and detailed. Generally unbiased in gear recommendations and focused on function.... although it's a little too easy to build a \$5K+ gear list and a 20 year plan for trips all around the US.

Great read from the meat eater crew! As a noob and looking to get my feet wet in hunting this book is very informational yet well organized so it's not overwhelming. From gear to butchering and everything between this book covers all ground. Looking forward to getting the small game next!

This book is a great resource for someone who is new to hunting and doesn't have a mentor. Even if you do have someone to teach you, this book would be useful. Also watch the MeatEater series, I have become a big fan of Steven Rinella. The podcasts are great as well.
