all of my kids love this, even the 8 year old! such a fun book with different tools to play with. of course they aren't made of plastic so kids do need to be gentle when getting them in and out of the book, but i think it's very well made considering it's a book!

Awesome interactive book. The book is well made, over an inch thick. It has active displays for each page to teach about the fire truck. Bought it for a birthday party and had to order one for my own kids. A bargain.

Grandson liked this book, but **MUST** be supervised while reading it. Great idea for young firefighters.

Birthday book for my son Great book with removable pieces. Any kid would love this.

When I first opened it up, I had my doubts. But when my grandkids came over they loved it. I knew it was a winner when they wanted to read it 3 times in a row. Be aware, it's a very heavy and big book. And sometimes the parts will fall out. Not a story book, more of an activity book. But like the bottom line is the kids like it, and that's what counts. Not sure how long it's going to last though.

I have the My Little Pink Princess Purse for my daughter and she loves it! The pieces have held up well - when I saw there was a Fire Truck version I was super excited to get it for my son. The pieces are harder to pull out and put back in then the purse version and over all just not as well designed.

Incredible book! Full of hands-on features made both my grandson and his grandparents impressed. Fantastic graphics with a toolbox inside leave the reader mesmerized. For young children, supervision is necessary to keep this book intact. Worth every penny!!!

My three year old neighbor was thrilled when I gave him this gift for his birthday.
