The Monk Who Sold His Ferrari: A Fable About Fulfilling Your Dreams & Reaching Your Destiny

Synopsis

The Monk Who Sold His Ferrari: A Fable About Fulfilling Your Dreams and Reaching Your Destiny by motivational speaker and author Robin Sharma is an inspiring tale that provides a step-by-step approach to living with greater courage, balance, abundance and joy. The Monk Who Sold His Ferrari tells the extraordinary story of Julian Mantle, a lawyer forced to confront the spiritual crisis of his out-of-balance life, and the subsequent wisdom that he gains on a life-changing odyssey that enables him to create a life of passion, purpose and peace.

Customer Reviews

Everyone loves a good fable, and this is certainly one. The protagonist is Julian Mantle, a high-profile attorney with a whacked-out schedule and a shameful set of spiritual priorities. Of course it takes a crisis (heart attack) to give Mantle pause. And pause he does--suddenly selling all his beloved possessions to trek India in pursuit of a meaningful existence. The Himalayan gurus along the way give simple advice, such as, "What lies behind you and what lies before you is nothing compared to what lies within you." Yet it is easy to forgive the story's simplicity because each kernel of wisdom is framed to address the persistent angst of Western white-collar professionals. --Gail Hudson --This text refers to the Audible Audio Edition edition.

"A captivating story that teaches as it delights."--Paulo Coelho, author of "The Alchemist"
"Nothing less than sensational. This book will bless your life."--Mark Victor Hansen, coauthor of "Chicken Soup for the Soul"
"Robin Sharma has created an enchanting tale that incorporates the classic tools of transformation into a simple philosophy of living. A delightful book that will change your

life."--Elaine St. James, author of "Simplify Your Life "and "Inner Spirituality"

As a long time student of self-improvement, I found this book to bring the recipe for meaningful life into a compact story that clearly explains not only the ingredients for that life, but also exactly how to combine them to create the happiness for which you have been searching. The symbolism in the story is well explained and the steps are easily grasped. If you take these lessons to heart and employ them, your life can only change to be more fulfilling.

I got this book because it was the book chosen for a book club I belong to. I wasn't sure what to expect but I wound up loving this story! For anyone wanting to change their life and live a more positive life and get away from the negative so prevalent in today's society this is a great story with great wisdom and practices to implement in your own life.

Simply one of the best books you can read. I can't believe I didn't read this before. I was scared when I was about to start a job at a startup (Crowdbabble) because I couldn't commit to anything in the past. This book has changed my life. It let me believe that failure is important but also not to compare myself to others even though I knew that, the book really makes that clear as a concept and a way of life. Be happy in the moment and learn to love the journey not the destination :)

I'm a negative person and this book is helping me a lot. It is the story of big shot lawyer who discovers a much better, calm, fulfilling life and then tells an ex-coworker (and us) about it. It tells a fable that makes no sense originally but it's used as a reminder of the things that will help you live a better life. Each of the main things on the fable represent an idea and the fable helps you remember all of them. To me the book is already worth it just with the first chapter. It is helping me avoid, or at least kick the negative thoughts out of my mind. The book explains, how our mind is like a garden and depending on your thoughts you can have a beautiful garden or one full of weed. I have started with a pretty ugly garden but I'm already working on improving it. That's just the beginning, then it goes from there, giving more wisdom with every chapter. Please, if you are a negative person, you need to read this book.

This book deserves a 5 star rating for its message and hands on job practical guidelines. I've read several auto-help and motivational genre but beware... This is not an auto help book. Thus that was what kept me reading page after page. This book brings the best of you and makes you reflect on

how you run your life and what you take away from it. How much time you dedicate making the best of your life and career? Finally this book does not give you an unilateral philosophical perspective of life, it actually helps you create routines that might guide you through a path of an inspiring and successful life. I recommend this book to the ones that are actively looking to develop themselves as human beings while having consistent success along the way.

This wonderful book was recommended by my friends in Hyderabad, India. It is a story about living. It is a story about purpose. Most of all, it is a story about realizing you control your own destiny and the stories to be told on the day of your demise. I heartily recommend it for all who question the purpose of a hamster wheel life.

A very nice story with lots of great advice explained in long winded way, but with very little real application instruction. It explains nicely the why and what, but is lacking the how. Still a very nice read.

This book can change your life. The Rituals to Radiant Living are great. What I like about this book is that it gives you techniques and methods to self development that work! Read this book about 4 times now in the last 3 years, each time you read, you learn something new. I have even created flash cards to this book and review them daily. You can even raise your children on the teachings of this book and they will be great human beings.
