Sharon Farris has been involved in the grants industry for more than ten years. She is the president of Farris Accounting & Consulting Training Services (FACT\$) as well as the former president of the American Association of Grant Professionals (AAGP) Montgomery.

This helped explain the laws regarding nonprofit accounting, etc. I was in need of more direction, and QuickBooks for Churches helped me a lot more than this book. But, this book really is more general, and I was starting from ground zero. This book is useful for all different types of accounting software.

The entire book is a cheerleading book to get money from the government. I had no experience with a nonprofit or business bookkeeping and the book did not help me at all! Had some common sense statements that anyone might already guess themselves but had no useful technical information. It is a waste of trees.

This book has helped me so much. I'm currently an accounting student whose first love is not accounting. So I was having trouble grasping the information. I attend online so I am missing the hands on teaching experience. It was all going over my head so I left school... life happened....but I decided to challenge myself bought this book and studied independently and then returned to school. I am doing great. Thanks for writing this it's awesome.

I've lent this book out to a number of cost accountants who needed to learn fund accounting. It will not teach you how to be an accountant.

Great product at a great price.

Very helpful.

I am giving it three stars because it does not explain how some of the fundraising accounts it suggestion you set up in your non-profit company. It also does not explain some of the information put on some of the financial statements. If you are not already familiar with bookkeeping and

accounting you might be a little lost when reading some of the information.
