# Unsolved! Mysterious Places (TIME FOR KIDS® Nonfiction Readers)

## Synopsis

From Stonehenge to the Bermuda Triangle, there are many places on Earth that remain a mystery to scientists! Readers will discover these curious places--and more!--as they move through this fascinating nonfiction title. This mysterious book features detailed images, informational text, and stimulating facts and theories in conjunction with upper-level features, such as chapter format, a glossary of terms, and an index.

About Shell Education  
Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.

## Customer Reviews

Our 11-year old grandson enjoyed this book immensely. We discussed it with him later. He had several questions which we answered by using Google.

Love it!

Overpriced. Like a pamphlet. Only 48 pages, and that includes the index and bibliography! The book is tiny to begin with, 5" x 8" and each 'place' gets a tiny 2 page spread with about a paragraph worth of minimal information. Here is what is covered: Stonehenge, The Pyramids, The Easter Island Statues, Stone spheres in Costa Rica and South Africa, Machu Picchu, Chaco Canyon, Atlantis, Angkor Wat, The Bermuda Triangle, Roswell NM, and Oak Island Money Pit. Book seems overall silly. I expected more from Time books. A total waste of money. Even though I'm glad I bought it used for a reduced price, I still overpaid. I wish I had read a review like this before I wasted any money on this. Save your money and use Wikipedia instead, you'll learn so much more for free!
