Gr 2-5 • In this second book of the series, superhero chicken, Gordon Bleu, and his little brother Benny (still partially in his super-strength shell) come to the aid of Miss Honey Comb, a well-loved opera singer in Fowladelphia when she is chicknapped by the evil Dr. Screech. Dr. Screech plans to use her super-loud voice and his megaphone to shake the city to bits. Gordon Bleu and Benny save Miss Honey Comb and Fowladelphia and make it home by dinnertime. Full-color comic-style illustrations with short blocks of text may help readers transition from beginning chapter books to traditional chapter books. Many jokes and puns will keep the attention of eager new readers looking for a fast-paced, funny adventure with unlikely superheroes. • Lindsay Persohn, University of South Florida, Tampa --This text refers to the Library Binding edition.

awesome book. 6 year old son loves it! But we've only had it for a week and the cover has already come completely off. He read it twice - normal use, as far as I can tell. He knows not to bend books backward or leave them propped open. We're trying to figure out how to effectively reattach the cover.

Fantastic book series for students just getting ready to break into chapter books. These stories are very engaging! I love the full color pages, and goofy puns. I often have to explain some of the chicken puns to the 2nd graders I work with, but that just makes it more fun, I think!

My son is in the first grade and has great reading skills. He is at that in between level where chapter books are too hard yet for him to read independently, but the leveled readers are boring him. The Branches books created by Scholastic are perfect for him (Kung Pow Chicken being just one series of many). These books maintain his interest and motivate him to want to read. I believe this is a great step into getting him into smaller chapter books; it is a perfect stepping stone. Also, it is hard to find books that interest boys. I also recommend the Boris and Monkey Me series, if you have young readers.

This series is fantastic! I gave the whole series to a friend's brothers and they love all the books.

This is the first book series that my son immediately sat down with and started to read on his own. After reading one of these books at school, he begged me to get more. The fact that the groupings of words are spread out around the pictures helps it be more entertaining. My son noted that the main chicken is in 2nd grade just like he is, which helped him feel like he is reading on grade level (which he pretty much is, but it is hard to see other kids who are more advanced reading). I will be buying the 4th book and looking for other branch books.

Another one of those book thingamabobs!

This is a fabulous book but it fell apart the first day my child read it. The cover binding separated from the book pages... I had wanted all the children in my family to be able to read this book and now it's in pieces and we didn't even get through more than a third of the book before it fell apart. Very frustrating!

My son that is just starting to read LOVED this book!
