How To Draw Vintage Fashion

Synopsis

A step-by-step fashion drawing book for beginners that focuses on finding inspiration in vintage styles. Based on successful fashion-drawing workshops at London's Fashion and Textile Museum, *How to draw vintage fashion* encourages people to draw inspiration from fashion looks of the past to create their own unique designs. From the 1920s flappers to 80s punk to Hollywood glamour, the book introduces the basics vintage designs and the techniques for drawing them. The first section of the book focuses on interviews with designers, models, stylists, and fashion bloggers about iconic photographs and garments that have helped to shape their work. The next section features a hands-on guide to drawing a range of vintage fashion including 1960s and 1970s looks, fashion inspired by musical trends, and the influence of style icons from cinema. There is also a section showcasing items with timeless appeal, including Ray Bans worn by James Dean, the biker jacket worn by Marlon Brando, and the Breton T-shirt made popular by Coco Chanel. Savvy young fashionistas will recognize the influence of vintage styles on contemporary designs, and will delight in being able to incorporate these styles in their own fashion drawings. Illustrated in color throughout.

Customer Reviews

"Especially dynamic....This fun survey of 20th century fashion is surprisingly informative, particularly for tweens and teenagers." - Library Journal

"Lays a solid foundation for our future designers to get inspired and get started doing something extraordinary." - Smart

Books for Smart Kids – “Joicey and Nothdruff do a pretty good job of giving a brief but accurate timetable for fashion with respect to designers, trends, fabrications, key silhouettes, icons, accessories, and more as well as some firsthand assessments of each era as told by a participant or authority of each era.” – New York Journal of Books – “Look[s] at trendsetting 20th-century designers and their work, covers how-to-draw basics with a decade-by-decade focus on historical styles, and provides tips for researching vintage and designing. Attractively formatted with a retro vibe | [Offers] clear information and instructions, while emphasizing the importance of practicing skills and sketching constantly to develop and refine ideas.” – School Library Journal

Celia Joicey is Head of the Fashion and Textile Museum, London. Dennis Nothdruff is Curator of the Fashion and Textile Museum, where he leads the museum’s series of drawing classes for young people. He lives in London.

This is an excellent intro to vintage fashion drawing. It is geared toward people in their late teens and early twenties, but has a good deal of fascinating info for all beginners (and anyone who loves vintage fashion). The whole “how to draw and dress a “croquis” was fun and informative (learned a new word and a new drawing technique:-) plus the comparisons of the different eras was insightful. I wish it had covered men’s vintage fashions too--but it is exclusively fashions for women. The only little problem was the pale font in some sections--but that doesn’t hurt the overall usefulness of the book. Highly recommended.
