Michelin Map No. 366 Sardinia

Synopsis

Recognized for more than a century for clarity, accuracy and detail even the military has relied Michelin maps Michelin offers over 200 selections for cities, regions and countries in North America, Europe, Africa and Asia. In-house cartographers, or mapmakers produce each map and atlas and leave no stone unturned. Everything from major roads to the tiniest routes is depicted on Michelin maps to allow travelers to go off the beaten path with confidence. What makes Michelin maps and atlases stand out? Michelin maps are frequently updated and specifically designed with travelers in mind. Michelin's cartography, user-friendly format and cross-referencing abilities with its renowned guidebook collections are paramount. The clear, clean and uncluttered style of Michelin maps is compounded with extreme attention to detail covering scenic roads, footpaths, panoramic views, emergency telephones, road widths and more. It's this kind of detail that can, for example, help North American tourists avoid surprises while traveling down narrow roads that are often hundreds of years old. Buildings, monuments, park trails and government offices are highlighted, too. When it comes to ease of use, Michelin has really done its homework. Michelin maps and the patented Michelin fold make it a snap to refold, even with one hand on the wheel. All Michelin atlases are available in spiral format, too. That's the number one binding preference according to independent consumer research. Michelin's unique cross-referencing system also makes mapping out travelers trips a cinch. Maps and guides throughout the Michelin collection work together with universal symbols directing to more information.

Book Information

Map

Publisher: French & European Pubns (May 4, 2017)

Language: English

ISBN-10: 0785902686

ISBN-13: 978-0785902683

Package Dimensions: 9.8 x 4.2 x 0.2 inches

Shipping Weight: 1.6 ounces (View shipping rates and policies)

Average Customer Review: 3.5 out of 5 stars 2 customer reviews

Customer Reviews

This map was adequate but a bit disappointing. My husband and I bought an amazing map while in

Sardinia 6 years ago and I was hoping this one might have updated road information and some additional detail with respect to secondary and local roads. The print on the Michelin map was very light and hard to read and the paper quality would not withstand our travel rigor. It was also only one-sided, which is surprising to me. The legend was difficult to read (again, font and print were not as clear as I'd like). I wish I could find a newer version of the one we have used:(Perhaps on our next trip we will get one!

easy to read and shows small roads too
