Customer Reviews

This book illustrates how antioxidants can reverse the aging process, diminish wrinkles, and even

help you lose weight and keep it off for good. The book contains six chapters, an introduction, a conclusion, and a preview of another book. In Chapter 1, you learn about foods for life. Chapter 2 concerns the foods for reversing aging. Chapter 3 consists of energy foods. Chapter 4 illustrates antioxidants as superpowers, Chapter 5 provides spices for health, and Chapter 6 tells about exotics. In Chapter 1, we learn about certain foods and drink that do not benefit us as well as ones that do and tips for overhauling our diet. The book is short and easy to read, a quick read that could make a difference for you. The author does clarify that no food will completely stop the aging process or make us live forever, of course. One important thing to realize is that beans do have value and are rich in antioxidants, iron, and the B vitamins as well as offering us additional benefits. So, don't have a diet that consists mainly of meat. The book is informative and knowledge is power, so own it. You may find one perfect to fit your needs.

A lot of good advice in this book. My son recently changed his diet to include many more vegetables and fruit and lost 10lbs in two weeks without feeling hungry. He says he has much more energy and his skin looks bright and clear. By coincidence I have just come across this book which confirms what I could already see in Chris. It's interesting to identify which foods help reverse the ageing process, which provide energy, antioxidants and which particular spices to use for health benefits. I will keep this book handy to remind myself to make the right food choices to stay healthy and hold back the years which has to be something most people are keen to do.

Many of the things listed in the book regarding slowing and reversing the aging process are widely known. However, the author has condensed a great deal of useful information into an easy-to-read, easy-to-understand, quick read book that almost anyone could find something beneficial.

If you want to look 10 years younger (at least) than this is the book for you. Here the author mentions how there certain foods which if consumed on a regular basis can help one increase their vitality, slow down the aging effects of their skin, etc. I would highly recommend reading this book, which lays all this out in a simple style which anyone can read.

I enjoyed and loved reading the book, quick read for a weekend. Lots of good tips for looking youthful and fresh with out over doing it and expense. Julianne your a great author. Looking forward to looking a few years younger!

I love the section on exotic foods, most I didn't even know about! And like I needed another reason to enjoy red wine! This book offers so many tricks and techniques! Highly recommended!

Same thing as

the<http://www.drFuhrman.com/shop/default.aspx?gclid=CJ7Ampb2uclCFasRMwodbCkAuw>

The book has got lots of information, gives you a better scope of knowledge with the food aspects in your life; Food that can help you stay young to some extent, Aging rate and how vegetables and fruits play a significant role in our diet. Though facts are known, The author has done great job in laying out the facts and tips every individual can start in their day to day lifestyle. Add-on would be quick and easy read, The antioxidants food supplements and food that is rich in other Vitamins and nutrients which are significant for our body are well categorized and it gets quite easy for the reader to understand and adapt if it suits. Amazing fact about Tea caught my attention; Drinking 5 cups a day can help in weight loss; Grab the book, it has got lot more secret health tips. Worth reading and found the book very useful piece. Look forward to read more of this author.
