Helpful book

This is a very helpful book and a great deal!

I am teaching a branding class at York College of PA this spring, and this will be the text.

Excellent read

This is by far the best book I've read on branding. It's easy to understand and doesn't use a lot of jargon like a lot of other branding books I've read. This book goes into great detail about not only what a brand is, but how to build one step-by-step. A must-have if you're a business owner or designer looking to add value to your business or clients.

nice book for beginners

A simple to understand book about Branding.
