In *What If a Stranger Approaches You?* (Ill. by Colleen M. Madden, Picture Window Books, Capstone, 2012, 24 p. 978-1-4048-6683-6) Anara Guard presents a variety of scenarios for grades PK to 3 in which male and female adults want to talk to a child, offer --School Librarian's Workshop

The fourth girl in a family of 8 children, Colleen Madden made it through childhood pretending to be a space princess with a wookiee sidekick and drawing in her cardboard box art studio. Colleen spent some time acting and training at The Second City in Chicago, then went on to graduate from a small liberal arts school in Massachusetts, with a contract major in illustration and English literature. She is currently residing in the Philadelphia area, with her writer-husband, and their 2 sons. She has illustrated for many different kinds of clients and is the recipient of an International Greeting Card Louie Award. When not illustrating, Colleen can be found long distance running, making her boys

giggle, and eating lots and lots of sushi.

I love it

The pictures were kind of "modern? Made it look creepy. Especially dealing with this subject. It didn't really mean too much for our girls. We ended up looking for "the Berenstain bears learn about STRANGERS" I had this as a kids and it clicked with our girls. It's one of their favorite to pick out for reading time

Good book tot read to you little ones

I love the different scenerios in the story! The book can help young children understand stranger safety.

Good book

Good book

This is a great stranger danger book to add to your home. It has seven real life scenarios and safety tips to read and discuss with your child. It is a great way to get the discussion going about strangers. My 4 year old was completely engaged and it lead us to talking at length about how to stay safe in the event of strangers approaching him. Discusses what to do if offered presents, car rides, is asked for help. Another important feature was "what to do if the stranger knows your name." It lead to the discussion to never have his name on backpacks, clothing, etc. What I loved was it offered a page on role playing, other books on the topic, and Internet sites. After reading this book just one time, he declined candy from an older neighbor that we do not know well. I highly recommend this book

I would like the book to mention not only about 'strangers' but people who the child know because 90% of sexual predators actually know the child but any book to bring awareness deserves stars.
