## Customer Reviews

Everyone has their own opinions on books and mine here won't be a popular one. Not at all. I waited to review this book. I contemplated for days on what I would write...it's not easy for me when it's an author I usually enjoy reading. It was very hard for me to read this book and to actually finish. The book was riddled with errors and timeline issues and many inconsistencies. There was a good premise to the story. I could have been very enjoyable. But I'm a very picky person when it comes to editing and proofreading. Some mistakes were so simple to catch, yet they were there. I've been reading and reviewing for too long to overlook this. I really feel bad about writing a review like this, but I have to be true to myself and write what I really feel. This does not mean I will stop reading this author, on the contrary, I'm hoping that the next book will be much better and actually look forward to it!

Amazing, absolutely an awesome story! Two people met, spent one incredible night together, then in the morning one 2nd guesses themselves, and the other wakes up alone and feels ghosted at being left without a word. Their connection was amazing, felt by both, without a doubt, but how do you find someone when all you have is a 1st name! Obviously they don't want to be found, or she might have sought him out. Do they stand a chance? Is there such a thing as true soul Mates? Read on,

enjoy, see what Mason and Bren have in store for you! I loved their journey, beautiful story!!!

Mason had a one night stand with the woman of his dreams but she left when he woke up and he had no way of finding her. He kept thinking about her and it was messing with his life. He never connected with a woman like that and he was sad. Then one day she is on his table waiting for an GYN exam. He found his Bren but she did not believe in happily ever after and couldn't understand why such a perfect man would be interested in her. That began their struggle and how Mason had to convince Bren to give him a chance.

Ok. I'm just going start by saying I was highly disappointed in this book. I was so excited and could not wait to read and it was ok. Neither character got me excited and eager to flip to the next page. They were kind of boring. I will say Bren annoyed me. I wanted to tell her to grow up...put on her big girl panties because everyone has issues of some sort. I just couldn't relate to either character which was disappointing. Oh well. Maybe next time.

That was one of the most adobe stories. It was so good I had to finish it tonight. Mason and Bren were cute and funny. Mason and Bren had a one night stand that neither of them could forget. She see him a few week later bec she believes she pregnant. A friend make her an appointment with a good doctor and Surprise. It's Dr. Mason Bentley, the one night stand that she ran from while he was sleep. ã Â Â^Â ã Â Â^Â ã Â Â^Â . You got to ready this story. It just a feel good.

This was so much fun to read!!! I loved Mason, our kind hearted, dirty talking Doctor and Bren, our scared little zoologist. I loved the concept and delivery of the storyline. Is she pregnant? We get to see Bren and Mason develop a relationship without having a baby be the reason they are together. I loved it. The only thing I'm hoping for now is a soul mate for Mason's best friend and fellow Doctor Trent!

I love Kendall Ryan and she never disappoints. I have been a fan from her beginnings as an author. She just gets better with every book she writes. This is another HEA with a wonderful H/h. Both are strong and likeable; though she does have issues he never gives up. Ms. Ryan's stories always make me a page turner reading until dawn as I just have to finish that last page. This is such a good read.

I was hoping for more from this story. I was waiting for the humor. Yes, some cute lines here and there but certainly not humorous. Mason represents all men in general in his thoughts and by his actions. Honestly, I read to get away what I'm surrounded by day in and day out. Bren is written marginally better. While the storyline is cute and shows promise, for me, this book fell quite short.
