The CITIX60 series provides guides to some of the world's most renowned design hubs - cities that lead the world in culture and design. Curated by a select group of local artists, designers, chefs, architects, musicians, photographers and filmmakers, this is an insider's view on what makes a trip to the city memorable. They include up-to-date recommendations on the accommodations, eateries and shops that give each city its distinctive flair, and a handy section on travel tips gives basic information on getting around, as well as unusual tours and recurring festivals to help better plan your trip. Detailed maps and QR codes provide ease of travel, and a blank pages section at the back of the book with lined and gridded pages allows for note-taking and sketching.

I'm going on a trip to London in a few months, and wanted to get a better idea of places to see and things to do. Everyone has heard of Big Ben and Buckingham Palace. This guide is awesome because it gives you an insight to a local London. It provides useful and interesting information as well, such as time zone, international calling, average weather temperatures throughout the year,

public transport. It even has information on festivals, events, and websites for "unusual outings". The cover jacket is also a cool illustration of London that you can remove and hang up on your wall. Reading this guide makes me even more excited for my trip!

Great London guide and compact enough to throw in a camera bag or purse. We even framed the map that covered the book because it was so cute!
