Customer Reviews

One of Neville's best works. I would also suggest picking up "A Neville Goddard Reader", so you'll

have basically his entire collection. These little books are perfect for the beach bag, vacation time, or just keeping them around to highlight and re-read..

If you believe you're a bit more than a biochemical random accidental product of the universe, nor believe in some man-created,projected external God...get ready to discover the alternative with Neville Goddard. Rediscover your Self and the world whether you're an Atheist, Buddhist, Taoist, Christian or any other "ist", you won't fail to get some really challenging and useful insights. It certainly helps to take responsibility, ownership and embrace a healthy, positive perspective on Life. This is how I review any and all of Neville's work with a deep sense of gratitude to the man.

Short book...summarizes the key points of Neville Goddard's work. I've read all the other Neville Goddard books and some of his lectures.I found the answers to the questions in this book helpful...and, like many of his books, he often says things in one place differently from some of his other books...and sometimes this 'new way' of stating previous material makes a very positive difference. I found that to be the case in this book.

It is a truly nice, little book that teaches importance of imagination and power of thoughts. It maybe especially helpful during tough times.

I was not brought up as a Christian so it was hard to read due to its heavy use of Biblical quotes but once I got past that block it was easy to understand the central message of the book! Imagination is everything! Hindus call it Maya! This book teaches you the fundamentals of how in everything manifest in our lives and how to CONSCIOUSLY manifest everything that we want in life and leave out things we don't! Grand-daddy of Abraham and all other recent "Attraction" literature!

I enjoyed the book. I never agreed with the teachings of the Bible by certain pastors and reverends but his book really made me think. Ever since I was little they way they taught the Bible never made sense to me. Being scared of God never made sense to me. Taking responsibility away from ourselves and blaming it on everything else made no sense to me. So finding this book out everything in to perspective FOR ME! If you are a closed minded religious nut I wouldn't get the book because I THINK you would be probably be offended. Just giving you a heads up! But if you're open to viewing the Bible in a different way then give it a read.

I really enjoy Neville's approach in sharing his knowledge, what he knows to be true through his practice of living. I find his interpretation of the Bible to be amazingly insightful and informative. Originally I was going to skip the questions, but at the encouragement from a friend, I read them, and I am So Happy I did. Most Excellent!

Henry Dowser "Dowsing for Self-Healing" mentions this man a lot and now I know why. The recordings on YouTube are poor audio but this man shoots you mind into fast drive and the possibilities are endless.
