This is a fantastic travel guide and very well organized. This was our first time at Oahu and so we decided to purchase this guide based on the recommendations we read here. We planned our vacation mainly around the sights and restaurants recommended in the book and I must say that we were pleasantly surprised, this guide not only points you to the best tourist attractions but also to some of the best not so known locations around the island. Great buy and highly recommended.

this book was great for our recent trip to hawaii, i used it most days when deciding where to eat, shop, sightsee, even had locations for laundromats which i needed at one point. another plus is that its not as big and weighty as a lot of the lonely planet guides its handy to chuck in the handbag too.

This is an awesome book. I have read all of it and it is helping me to plan our anniversary trip to the islands. It has helped me decided on what to do and not to do based on the very honest writing by the authors. Would highly recommend it for someone getting ready to travel to O'ahu!!

good book

This guide book had tons of really great full color pictures! I have never bought a book made by this company before, but I will definitely buy another one!

not worth the cost of shipping... travel guides shouldn't be sold when they are 15 years old,,i suppose i should have looked more carefully

I used this guide along with "Oahu Revealed" and was thoroughly happy with both purchases. This particular guide, while missing color photos, had awesome walking tours and many useful maps. Each area was divided into easy to follow categories such as eating, sleeping and activities. And the reviews are short, but accurate!

I used Lonely Planet religiously when traveling throughout Europe and was never let down. The restaurant, hotel, and activity recommendations were fantastic. So, when planning a trip to Hawaii the first thing I did was purchase this book. I was very disappointed in the minimal recommendations. For example, I am going surfing and the book didn't have any specific surf lesson places listed. Typically I am a huge fan of lonely planet, but this is not their best work.
