I thoroughly learned about NLP and am now trying to implement it the examples and exercises were good and useful for my learning. I recommend it for anyone in school, business, or church work to build the success they deserve.

This is NOT NLP! This is mainly affirmations which Bandler states is not very effective. I'm glad it was free when I ordered. I can't believe the stuff that gets published for Kindle. would be wise to have some kind of standards on what they publish, like most regular book publishers.

I find this book great! It has a complete information about NLP on one single binding. It lays a framework and gives the fundamentals to this awesome science, and does so with such grace and ease that it is mesmerising. It simply and eloquently explains how you can use your brain to it's fullest potential and how to use your senses to design ways to get what you've always wanted.

I really thought these were so BASIC and repetitive. Yes, my bad for not realizing 24 (affirmations) scripts (which kinda all sounded alike) is what you get for \$9.98! Actually 34 pages...big whoop. I am feeling like I better read the info more clearly before pushing that 'add to cart' button. Shame on me.

I loved all the affirmations for different sets of circumstances. Books like this are so important in our stressful world. Definitely worth the read. Written in an easy to understand format with the techniques laid out clearly, makes it easy to start right away.

Very disappointed in the size of this book. It's more like a pamphlet than a book.

Loved it. It was an easy read and made you think about situations more clearly.

NLP Master's Scriptbook was a good listen. The Neuro Linguistic Programming approach is parallel to positive self talk and positive imagery and follow through. I think it's great. I don't know what the 'mind control' part is unless it's related to hypnosis. What I do know is that this book is definitely positive reinforcement and with that, there's no way to go wrong. I think this is a terrific audiobook. Very useful. Daniel Hawking has a very nice voice with a positive, soothing tone. He made this a great listen and something I'll listen to again, perhaps even today.
