# Heartsridge Shifters: Cade (South-One Bears Book 2)

## Synopsis

Team South-One Bear shifter Cade Ayers has been tasked with the mission of bringing a rogue fox shifter in for questioning, something that should be relatively easy, since all intel points to the shifter being only a boy. He already feels bad for the kid, but it isn't his job to pass judgment. That would happen back home, in the shifter town of Heartsridge. Finding himself on the business end of a rifle certainly makes things a little more interesting. It isn't every day a woman takes his breath away and waves a gun at him. This little, curvy spitfire is armed, spooked, and stubborn as hell. Lucky for him, she might also be his fated mate. All fox shifter Mina Foxglove wants is to be left alone to work her farm and survive every day as it comes. Actually, that's a lie and she knows it. What she really craves is to follow her dreams and have a life beyond waking up at the ass crack of dawn to work her fingers to the bone. But life isn't fair and dreams are just that, right? When a group of men arrive looking for her brother, her first instinct is to fight. Then she lays eyes on him. A bear shifter with a body built for sin and a warmth in his eyes that has her questioning everything she's ever been told. That inter-species relationships are wrong. That the shifter town of Heartsridge is a bad place. That a man like Cade Ayers couldn't possibly be her fated mate. But, sweet thunder clouds, everything inside her screams that he is. Worse, judging from the heated interest in his eyes, he's dangerously close to figuring it out. A wink and grin, and she knows she's screwed. He's not going to let her go without a full investigation of the up close and personal kind. ~ ~ ~ Heartsridge Shifters is a new world. Shifters are no longer a secret and they're ready to fight for their right to live free. Everything is different. Six years ago, the Registration Act forced shifters out into the open and the world changed. Towns were created to provide a safe haven for those shifters who chose to follow the law, and those who didn't were declared rogue. Heartsridge is one of the few shifter towns in existence, guarded and protected by special teams of bears and wolves. Their job: to protect the right for shifters to live and love, and for the space to run free as nature intended. Because not all humans found the truth easy to accept that they're no longer the dominant species. Tourism keeps the town thriving, humans able to visit and stay for a week, but then they have to leave. It's the law. \*\*This full length novel contains naughty language, fully realized love scenes, and big, burly bear shifters who only have eyes for their fated mates. \*\*

## Customer Reviews

A good continuation of the suspense started in book one- something is coming down the line to try and take down the Heartsridge settlement and it's going to be big. I think that we just saw the tip of the iceberg with the shifter "Purists"- and possibly even the human government- in this book. The fact that someone has to go undercover tells me that it's bigger than anyone predicts. Think Lora Leigh's 'Breeds' and/or Laurann Dohner's 'New Species'- their own settlement with their own laws, military, and punishments. I see many books in this series' future, especially since we haven't even touched on the other known settlement. I can't wait. That said, the vulnerability of Cade's background coupled with the sweet acceptance of confident Mina- despite her "Purist" upbringing- made for a terrific 'discovering they're mates' story. And the whole 'mixed marriage' message wasn't lost on me either. The extremely steamy restaurant scene is not to be missed. Just sayin'.....Can't wait for book three! Hurry Olivia!

Yep, foxes can mix with bears and it's gonna be wonderful!! I'm SO RECOMMENDING THAT YOU

HAVE THIS SERIES AND ENJOY THIS WITH ME..it's full of TERRIFIC CHARACTERS AND THEIR Troubles and challenges to get their HEA TOGETHER!! It's a wonderful journey through her charismatic characters and their story,so join me in enjoying this series by OLIVIA ARRAN!! I'm SO HOPING FOR MORE ADDITIONAL BOOKS TO THIS WHOLE SERIES!! Plenty of secondary characters are worthy of a book about how they finally get their

HEA!!

Between Harper having been bitten, finding the fox who did it and rendering punishment, rogues infiltrating and spying in Heartsridge, purist sentiments are keeping Cade and Mina apart. She was raised a purist, foxes only mate with foxes, but Cade is making that very difficult to stick to. And he plans on keeping close and showing her his intentions. But her father promised her to Morris as a child, and Morris just escaped.

I really enjoyed these two books, but am so disappointed that all of these other great characters are not going to get their own storyline. You write such great stories but you left it hanging. What about the purists? And Jake and Nate and even Cade's dad, and Michael they all deserve a book of their own. I hope you rethink the two books and go back and let each great character have a great story.

I really enjoy this series. There is humor, romance, very hot sexy shifters, and really steamy sex. I like that the H/h points of view let you know what they are thinking. And I really like the world building with the shifter town, the sense of one big family no matter what species they are. I definitely recommend this series and look forward to the next story. Enjoy!

Cade is a gentle bear shifter. That is he was gentle until his fated mate was in trouble then we got to see the true bear emerge. He also has separation issues. Talk about a passel of problems. You're gonna want to read this book for sure.

I really loved this really great story. I could not put the book down till I finished reading the whole wonderful story.Thank you so very much for writing this wonderful story.

A rogue shifter family gets brought in because a teenager bit a human, a bear shifter sent to bring in the young boy who bit a human, read the story I believe you will be pleased.
