Customer Reviews

Love this. Bought it again when I couldn't find the first one I bought years ago before I went back to Rome again. Each walk is printed on a single card that fits easily in a pocket, and the walks cover all the places in Rome we wanted to go and then some. Very clear instructions on each card. So much easier than carrying a guidebook (that was years ago) or trying to read from a cell phone (so annoying).

A truly great help when you don't want to look too much like a tourist. Very discreet and truly helpful. Have tried some of their other "walk" products and they are very helpful before you go, while you're there, and after you get home!

gift for friend going to italy

Excellent and concise short walks in Rome

I have used the Paris version of this product. The pages are easy to use, handy and so informative. You don't have to heed every suggestion, but the information is literally at your fingertips. Can't wait to walk around Rome!

Very unusual, and delightful --- good guide, although I wish it had more information about each site!
Very novel, and most enjoyable!

This was for my trip to Rome last Christmas. Great product, the individual cards were easy to use and carry around.

I bought these before I went to Rome because I knew I was going to spend a lot of time walking around the city. After I got there I realized that they just weren't very practical. I never ended up using them and just left them at the hotel when I left for other travelers.
