# GMAT® Test Prep: GMAT® Secrets Study Guide: Complete Review, Practice Tests, Video Tutorials For The Graduate Management Admission Test

## Synopsis

\*\*\*Includes Practice Test Questions and 114 Step-By-Step Tutorial Videos\*\*\*Get the test prep help you need to be successful on the GMAT.The GMAT is extremely challenging and thorough test preparation is essential for success. GMAT Test Prep: GMAT Secrets Study Guide is the ideal prep solution for anyone who wants to pass the Graduate Management Admission Test.Not only does it provide a comprehensive guide to the GMAT exam as a whole, it also provides practice test questions as well as detailed explanations of each answer.GMAT Test Prep: GMAT Secrets Study Guide includes:A thorough and detailed review of the GMAT examA review of the analytical writing assessmentAn in-depth look at the integrated reasoning testA guide to the quantitative testAn analysis of the verbal testComprehensive practice questions with detailed answer explanationsIt's filled with the critical information you'll need in order to do well on the test: the concepts, procedures, principles, and vocabulary that the Graduate Management Admission Council (GMAC) expects you to have mastered before sitting for the exam.The guide is full of specific and detailed information that will be key to increasing your GMAT score. Concepts and principles aren't simply named or described in passing, but are explained in detail. The guide is laid out in a logical and organized fashion so that one section naturally flows from the one preceding it. Because it's written with an eye for both technical accuracy and accessibility, you will not have to worry about getting lost in dense academic language.Any test prep guide is only as good as its practice questions and answers, and that's another area where our guide stands out. Our test designers have provided scores of test questions that will prepare you for what to expect on the actual GMAT test. Each answer is explained in depth, in order to make the principles and reasoning behind it crystal clear.We've helped thousands of people pass standardized tests and achieve their education and career goals. We've done this by setting high standards for our test preparation guides, and our GMAT Test Prep: GMAT Secrets Study Guide is no exception. It's an excellent investment in your future.

## Customer Reviews

So far, I'm really impressed with how simple this book is to read and how it is clear and to the point. It is perfect for reviewing things already learned and should not take too long to finish reading! The best part was this it its so affordable! Keep up the good work!

Great content, liked the videos and practice tests included in the review material.

This book is comprehensive, with concepts and practice questions it covers entire exam. Few preparation guide I read where overloaded with information, but I find this simple and to the point with practice problems. Normally I have practice of making short notes of which I study so that it makes easier to review and I find this book works more as notes and easy come back refer. I also went through the office GMAT test preparation study guide, the difference I find was some of critical tips and problems where added to the study. Most of the books has practice problems and technics but the different I find in this book is the strategy and alinement is well taught. To summarize when look at this size the book I relived a little, as most other books where bulky and yet it convers topics, tips & strategy I would recommend this product to anyone who is looking for extra material to study for the GMAT. I received this book for discounted price for my honest review and feedback

I got this book to prepare for application for my Masters - so far GMAT is the most complicated and scary part of the process. Overall impression of this book is that it is a good quality guide with a lot of substance and sense. I feel like it has a lot of value, I will explain why: + It outlines the GMAT as whole, explains how everything works and what one is to expect, and what kind of preparation is needed, in general. + It is written in a clear and professional language, yet it is very easy to relate to and understand. + It includes guidelines to the analytical writing assessment, and it is in-depth. + It comprehensively explains the reasoning test and gives examples. + It includes guidelines to the the

quantitative test as well as the verbal test+ I appreciated the in-depth explanation of different issues and subjects. The practice questions are very helpful to really check your understanding and see if you can move forward, or need to go back and review material. All the correct answers are explained, so I can check the logic and reasoning I have used while answering the questions and see if I understand the whole approach and logic behind it correctly. Conclusion: though it might not be the only guide/study book I will use to prepare myself for the GMAT test (I just started) - this one is definitely helpful, and I am sure I will come back to it over and over again. Overall, an honest guide, and I am very glad that I gave it a try. Please feel free to ask any questions about this product, I will do my best to answer them! I personally purchased and used this product and will do my best to give you an elaborate answer. If my review is useful please rate it as "helpful" below.

Disclaimer: I was offered a discount on 'GMAT Test Prep: GMAT Secrets Study Guide: Complete Review, Practice Tests, Video Tutorials for the Graduate Management Admission Test' by Educational Publishing, Inc. in exchange for a fair and honest review. Disclaimer over, on the the review: Pros:- Appears to be organized quite well- Claims to cover all of the subject material on the exam- Has several practice exams to get you comfortable with the process and how the questions will be presented to you as well as providing sample material for you to try your knowledge out on Cons:- None that I can see, I'm not an expert in the material While I'm no expert on the GMAT, or even how to study for the GMAT (the Graduate Management Admissin Test is a computer adaptive test used to assess some of your anayltical, writing, quantitative, verbal and reading skills in written english to get into Graduate level programs like an MBA) the text did seem fairly comprehensive. It includes review material on, apparently, all of the areas that will be tested, practice exams and some videos. It's your standard mass-produced paper, glued-spine cheap textbook style printing and binding. If one was preparing for the GMAT, assuming everything in the book is correct, this would prove to be a handle tool when preparing to take the Graduate Management Admission Test, GMAT Test Prep: GMAT Secrets Study Guide: Complete Review, Practice Tests, Video Tutorials for the Graduate Management Admission Test Sold by Educational Publishing, Inc seems to be worth every penny.

I've receive this product from the seller at a discount or for free to review, To give my honest opinion and review the product. So here is my honest opinion on it. experience from previously taken this exam and study through many of the prep books Pros:- This book cover most of the basic for the GMAT test- Every section is well organize- Tips and trick to every section including technique that

would really save you time when taking this exam-The language use is very well fitted for college student and easy to understand.-Practice exam very similar to other books which is great, and the key explain every question in great detail.Cons:-Be warn the book is relatively small compare to other prep books so it doesn't go in great detail on every subject only provide tips and trick.-Only have 1 practice examOverall, is an ok study book. I would recommend this book simply because it break down every subject in easy sub section for you to focus on and study more efficiently if you are taking this exam in a couple weeks this would be handy. But if you want to do well on the exam i would recomend getting a book with more study questions and goes more in depth of individual subject.
