Acknowledged by linguists and lawyers alike as THE authority in legal language and usage, his influence is both far-reaching and profound. Mr. Garner has has a hand in editing the most important legal references produced in the last decade, as well as in training lawyers and judges on sharpening and clarifying their own legal writing. In short, no one better bridges the worlds of law and language--nor is better suited to take on the classic work and make it better.

Good pocket dictionary but a newer and more complete edition is recommended if you plan on really using it. In my case I bout it for a translating class that focuses on court interpreting/translating and I found that I could find about 2/3 of the vocab I needed, and had a hard time with the

remaining, its a ok for the price but would have preferred a newer version now that I have it and use it constantly.

I am still reading as it is a dictionary. However, it has met my expectations and has surprised me with the everyday words in which we use has different meanings in this dictionary. People should read the book.

Awesome book I showed up in great condition. I don't think it's the full version but I had enough info to get me going.

Not the latest edition, but still very helpful and informative. Refer to it all the times when unfamiliar with a term while in class or working on a project. (Currently a Paralegal Student) Highly Recommended, great price!

This is a great product. I immediately began using it. It's an excellent addition to my library. The meanings are very clear and easy to understand. The book is portable enough to carry in my laptop bag and yet has a comprehensive and almost exhaustive definition to legal terms. I expect to get many years of use out of this volume.

Excellent size for a backpack/bookbag. For a paperback, it's pretty sturdy.

I understand now why this book has such high rating, being in law school it has helped me to make sense of many of the terms we are discussing currently!

Thank you very much. This book serves my knowledge for seeking legal terms. This book helps me to understand legal terms because legal terms is very difficult to know if you don't know what it is.
