Silent Partners: Artist And Mannequin From Function To Fetish

Synopsis

The articulated human figure made of wax or wood has been a common tool in artistic practice since the 16th century. Its mobile limbs enable the artist to study anatomical proportion, fix a pose at will, and perfect the depiction of drapery and clothing. Over the course of the 19th century, the mannequin gradually emerged from the studio to become the artist's subject, at first humorously, then in more complicated ways, playing on the unnerving psychological presence of a figure that was realistic, yet unreal; lifelike, yet lifeless. *Silent Partners* locates the artist's mannequin within the context of an expanding universe of effigies, avatars, dolls, and shop window dummies. Generously illustrated, this book features works by such artists as Poussin, Gainsborough, Degas, Courbet, Cézanne, Kokoschka, Dalí, Man Ray, and others; the astute, perceptive text examines their range of responses to the uncanny and highly suggestive potential of the mannequin.

Customer Reviews

A fascinating and scholarly new book. . . Jane Munro introduces this book by saying her aim is 'to give the artist's silent partner a voice'. She certainly succeeds, as well as providing enough rich, often disturbing, material for contemplation in a world where the allure of androids and avatars is only increasing. •Marcus Field, Art Quarterly (Marcus Field Art Quarterly 2014-09-01)

A riveting account of the myriad transformations of the artist's mannequin which play on the unnerving psychological presence of a mobile figure that is lifelike, yet lifeless.

Informative and delightful book.

Thank you!
